As the world becomes increasingly interconnected, harnessing the potential of educational technology is crucial for achieving the SDGs and creating a more equitable and sustainable future. Advancing Sustainable Development Goals With Educational Technology explores theoretical insights, practical applications, case studies, and best practices illustrating how educational technology can contribute to the global effort of achieving the SDGs. It provides a comprehensive understanding of the intersection between educational technology and each of the 17 SDGs, highlighting innovative approaches, success stories, and lessons learned. **HACKED CHILDHOOD** DAVID SANDUA, 2025-03-30 Hacked Childhood offers a critical, well-researched, and deeply insightful look at the impact of social media on the cognitive and emotional development of children as young as three years old. In a world saturated with digital devices and algorithm-driven behavior, this book explores how platforms like TikTok, Instagram, and YouTube Kids are reshaping attention, spans language skills, empathy, self-esteem, and social interaction. With a balance of scientific rigor and humanistic sensitivity, this book examines how these attention-grabbing, addictive technologies disrupt natural learning, play, and emotional bonding. Drawing from neuroscience, education case studies, and parental experience, the author paints an alarming picture of generations building their identities through digital validation, replacing human connection with emojis and likes. Far from technophobic, this book is a timely call for parents, educators, and policymakers to rethink the childhood we're shaping. With practical strategies and actionable solutions, Hacked Childhood is an essential guide for navigating parenting in the digital era and safeguarding children's healthy development.

However, it would be naive to ignore the fact that regenerative medicines pose a whole new set of challenges to an industry sector that, for decades, has geared itself to the development of pharmaceuticals.
