that they and I were capable of One hindrance to effective teaching is poor continuity of thought for example having to say to a trainee Wait a minute forget what I just told you We have to go back and do some thing else first It was in trying to avoid pitfalls such as this that I undertook a detailed examination of the processes involved what I thought each trainee had to know and what questions they would most frequently ask From this analysis I developed the various process procedures Only after I had done so was I able to train effectively and with the confidence that I was doing the best possible job Answers had to be at hand for all of their questions and in what ever detail they needed to know
