**The Grandfather Paradox** Steven Burgauer, 2017-01-17 Marooned in the present their only hope for the future lay in the past But first there was still the small matter of staying alive The planet they were marooned on was crawling with bird beasts immense parrotlike carnivores that stood two meters tall weighed upwards of fifty kilograms and had a giant scooped beak like a pelican They normally swallowed their prey whole though not before crushing them to death in their vise like jaws Then there were the vipers writhing snake like creatures armed with dozens of sucker bearing tentacles They sprayed their victims with acid then ate them while they were still alive But it got worse Much worse Now join Andu Nehrengel and his female clone companions on an intense voyage through time First stop the Civil War and the Battle of Shiloh April 1862 one of the most horrendous land battles of all time Meet Mark Twain when he is still a riverboat pilot Journey with him north to Missouri when he joins the Confederacy Then it's back to the future and on to Mars And when you're done reading this adventure check out these other fine books by author Steven Burgauer *The Night of the Eleventh Sun* *The Road To War* *Duty Drill Courage* *Capture* and his newest historical fiction piece *Nazi Saboteurs on the Bayou* with a short video trailer <https://www.youtube.com/watch?v=nQs2pwr89RI>

**The Bettor** Tim Parise, Berlin 1939 An American tourist walks into the bar of the Adlon Hotel and offers while under the influence to bet that Germany and Russia will make common cause against Poland in the near future The locals don t buy such an outlandish prediction and eagerly accept his wager Later that evening the news comes over the radio that Germany and the USSR have just signed a nonaggression pact Six years later Professor Harry Gordon is still gambling winning a quarter of a million dollars on a long shot at Belmont Park in New York and making steady profits on the stock market as well He also seems to have acquired even more dangerous hobbies When a prominent scientist goes missing in Mexico during a riot he is eating at a restaurant down the street When important documents disappear from the Los Alamos National Laboratory he is busy sending off tightly packed envelopes to foreign embassies When the CIA brings counterrevolution to Cuba at the Bay of Pigs he happens to be watching from a nearby hill As it turns out the Professor is not content merely to observe events as historians usually do He wants to play a role in manipulating them Aided and abetted by an American draft dodger an Australian pilot and a former Soviet spy the Professor works by devious routes to hammer into the public imagination the idea that there is a worse threat to the American way of life than mere Communism And then in the background he quietly goes about increasing that threat by every means in his power By 1968 France Israel and Iran are forming a nuclear triumvirate that dominates the Mediterranean world The United States is refocusing its foreign policy on a revival of the Monroe Doctrine Southern Asia and China are balancing on the verge of the worst famine in centuries Africa is in flames from Alexandria to Cape Town The Soviet Union is depending on American resources in order to survive and vice versa In these circumstances the Professor s efforts to carve out an improved future for humanity appear to have failed Any effect they may have had on history will be lost in the spreading patterns of conflict that are busy plunging nation after nation into internal strife Or will it
