

Weimar Germany

War 1

- President Wilson said he wouldn't discuss peace terms while Kaiser Wilhelm 2 was in charge
- End Oct 1918, Kiel navy soldiers mutinied and didn't fight the British naval
- 9th Nov, Kaiser abdicates
- 10th Nov, Chancellor Ebert set up a new republic
- 11th Nov, he signed the armistice

Setting up Weimar

- Jan 1919, new democratic constitution was set up, Aug 1919 it was finalised:

Positives

- Established most advanced democratic in Europe, people could vote at 20 whereas in Britain men voted from 21 and women from 30
- President elected every 7 years and had the power to appoint the Chancellor
- Reichstag had power to pass or reject changes in laws - elected by proportional representation every 4 years
- Established right of free speech and practice of religion

Negatives

- Article 48, the President could pass laws without confirmation from the Reichstag - gave President too much power
- PR led to small parties getting seats in the government - led to extremist parties getting votes like the NSDAP.
- No party was large enough to confirm a majority so they formed coalition governments - these were often weak and short-lived
- Many important people eg. judges were those from the Kaiser's rule - they opposed the Weimar Republic

Early unpopularity

- Stab-in-the-back theory - many Germans thought the German army was betrayed by the politics (November Criminals) who had signed the Treaty of Versailles

The Weimar Republic Questions In History

Mary Fulbrook

The Weimar Republic Questions In History:

Europe, 1890-1945 Stephen J. Lee, 2003 In a unique style this new approach to teaching and learning early twentieth century European history at A level focuses on the key topics within the period to meet the needs of teachers and students studying for revised AS and A2

Postwar History Education in Japan and the Germanys Julian Dierkes, 2010-12-14 How did East and West Germany and Japan reconstitute national identity after World War II Did all three experience parallel reactions to national trauma and reconstruction History education shaped how these nations reconceived their national identities Because the content of history education was controlled by different actors history education materials framed national identity in very different ways In Japan where the curriculum was controlled by bureaucrats bent on maintaining their purported neutrality materials focused on the empirical building blocks of history who were what at the expense of discussions of historical responsibility In East Germany where party cadres controlled the curriculum students were taught that World War II was a capitalist aberration In West Germany where teachers controlled the curriculum students were taught the lessons of shame and then regeneration after historians turned away from grand national narratives This book shows that constructions of national identity are not easily malleable on the basis of moral and political concerns only but that they are subject to institutional constraints and opportunities In an age when post conflict reconstruction and reconciliation has become a major focus of international policies the analysis offers important implications for the parallel revision of portrayals of national history and the institutional reconstruction of policy making regimes

The Regime Question Amel Ahmed, 2025-07-22 Ongoing struggles over core principles of democratic governance The regime question often boiled down to democracy or autocracy has been central to democratic politics from the start This has entailed not only fights over the extent of the franchise but also crucially ongoing struggles over core principles of democracy the rules of the game In this timely study Amel Ahmed examines the origins and development of the regime question in Western democracies and considers the implications for regime contention today She argues that battles over the regime question were so foundational and so enduring that they constitute a dimension of politics that polarized political opponents across the regime divide Ahmed investigates four historical cases in the study of democratic development the United Kingdom between the Reform Act of 1832 and World War II 1832 1939 Imperial and Weimar era Germany 1876 1933 the French Third Republic 1870 1939 and the United States before World War II 1789 1939 Focusing on legislative politics as an essential site of democratic governance and key to understanding long term democratic endurance she shows that when the regime question became salient it hindered the formation of viable legislative coalitions along the left right policy spectrum This failure opened the door to executive encroachment destabilizing the regime Ahmed shows that the resurgence of the regime question today is not as is often assumed a break with prior trajectories of political development but a new instantiation of battles fought in previous eras

Postwar History Education in Japan and the Germanys Julian Beatus Dierkes, 2010

How did East and West Germany and Japan reconstitute national identity after World War II Did all three experience parallel reactions to national trauma and reconstruction History education shaped how these nations reconceived their national identities Because the content of history education was controlled by different actors history education materials framed national identity in very different ways In Japan where the curriculum was controlled by bureaucrats bent on maintaining their purported neutrality materials focused on the empirical building blocks of history wh
