## **The Winter Fens:**

**The Winter Fens** Edward Storey,2000-04-01      *The Lost Fens* Ian D. Rotherham,2013-04-01 The loss of the great fenlands of eastern England is the greatest single removal of ecology in our history So thorough was the process that most visitors to the regions or even people living there have little idea of what has gone For many the Fenlands are the vast expansive flatlands of intensive farming the breadbaskets of Britain Lost are the vast flocks of wetland birds that filled the evening skies in winter the frozen wetlands and the fen skaters of the winter and the abundant black terns or breeding wading birds of the summer months However pause a while off main roads and consider place names and road names Fenny Lane The Withies Commonside Reed Holme Fen Common Turbary Lane Wildmore Adventurers Fen Wicken Fen and more they tell a story of a landscape now gone but once hugely important The Fens bred revolution and civil war and paid the penalty They nurtured religious non conformism with global impact After 1066 the Saxons withheld the Normans onslaught and in the 1970s unting s Beavers took action against twentieth century invaders The fenscapes neither water nor land but something in between breed independence and if necessary dissention This story is of politically and economically driven ecological catastrophe and loss So much has gone but we do not even know fully what was there before With global environmental change and especially climate change fenlands once again have major roles in our sustainable futures      *The fens and floods of mid-Lincolnshire; with a description of the river Witham* James Sandby Padley,1882      **The Fens and Floods of Mid-Lincolnshire** James Sandby Padley,1882      [The Draining of the Fens](#) H. C. Darby,2011-08-18 The text is ambitious in scope reflecting the author s position as a historical geographer and covers a broad range of disciplinary perspectives ranging from geology to socio economic analysis Numerous illustrative figures are contained including maps diagrams and photographs of the area and a bibliography is also provided      [Our Fenland Memories](#) Ann Cowper,2025-01-03 Step back in time to the 1930s and 40s where life was vastly different for a family growing up on a Fenland farm in the middle of nowhere The hard work of farming was a way of life with no fancy machines to ease the back breaking labour Every family member and friend had a role to play from picking potatoes by baskets to chop hoeing sugar beets And when harvest time came around it was dirty work for the adults but great fun for the children who were happy to help especially if there was extra pocket money on offer In those distinct seasons of yesteryear winter brought frost that created magical ice crystals on the inside of windows We learned to take comfort in stone hot water bottles at night and became experts at dressing and undressing quickly in unheated bedrooms But would we be able to cope today without electricity or indoor plumbing Perhaps but we d rather not find out These personal memories of social history are a treasured part of our heritage a snapshot of life in a bygone era that needs to be preserved with pride for future generations In this fast moving ever changing world it s important that we don t forget our Fenland roots Join us on a journey through time as we reminisce about the joys and challenges of life on a rural farm in a simpler more humble era      **Reminiscences of Fen and**
