Smith, Sascha Priewe, 2023-09-05. Museum diplomacy has come to new prominence in the contemporary moment. Museums have increasingly global agendas, advancing diverse international partnerships across the world. Moreover, they hold the potential to advance cross-cultural education and foster mutual understanding at a moment when we are beset by global challenges. Acknowledging the troubled histories of these institutions and their contested status, *Museum Diplomacy: How Cultural Institutions Shape Global Engagement* recognizes the pivotal contributions of museums to global work while also grappling with the significant issues, questions, and possibilities that these activities raise. The collection features examinations of museum diplomacy by fifteen leading scholars and museum practitioners. These texts address global case studies that speak to museum practices related to objects, collections, and people, and charting foundational concepts and ideas. Taken as a whole, the book provides contemporary examples grounded in historic context, along with provocations and explorations of best practices, providing points for reflection along with guidance for practitioners and scholars alike. Through these wide-ranging

contributions Museum Diplomacy also contributes a new understanding of cultural diplomacy that recognizes the vital diplomatic work of curators museum administrators and other museum professionals as well as how these practitioners exert their own agency in ways that may or may not align with broader government and institutional agendas Ultimately Museum Diplomacy calls on the sector to rethink their perceptions of cultural diplomacy and embrace an expansive understanding of the diplomatic practitioner
