Foundations and Public Policy Joan Roelofs,2012-02-01 In this pathbreaking study of foundation influence author Joan Roelofs produces a comprehensive picture of philanthropy s critical role in society She shows how a vast number of policy innovations have arisen from the most important foundations lessening the destructive impact of global marketization Conversely groups and movements that might challenge the status quo are nudged into line with grants and technical assistance and foundations also have considerable power to shape such things as public opinion higher education and elite ideology The cumulative effect is that foundations despite their progressive goals have a depoliticizing effect one that preserves the hegemony of neoliberal institutions On Korea ,2007 □□□□□□□□□□ □□,2009 *Gaiko Forum* ,2006

The Might of the Multinationals Alexandr Rubner,1990-07-26 Drawing upon his three decades of experience as a corporate economist including 17 years as a senior economist with Business International Corporation Alex Rubner here offers an incisive study of the multinational corporation as its fortunes have waxed and waned over the years The author traces the evolution of the modern multinational corporation and the popular academic and governmental sentiments associated with it arguing that the transnational corporate entity is far from the all powerful supranational giant many have envisioned In contrast Rubner shows the modern multinational is a fragile strife ridden business operation often with significantly lower profit margins than smaller local or regional firms Written for both international business scholars and lay readers interested in business matters *The Might of the Multinationals* provides a compelling look at the real and imagined power of the world s largest and most well known corporations Following an introductory chapter which sets the stage for the discussions that follow the author addresses the concepts of the multinational company as formulated by idealistic advocates and vehement adversaries Rubner shows that populist perceptions of the power of multinationals are of relatively recent vintage and derive from a variety of sources including religious and trade union leaders politicians businessmen and academic theorists The second section explores the actual day to day realities that govern the operation of multinationals and examines such issues as the inhospitability of host countries the inability of large bureaucratic organizations to react quickly to changing conditions and the hypersensitivity of multinationals Finally Rubner looks to the future evaluating the revised strategies of Western multinationals regarding overseas investments He concludes that the power of the major transnationals is diminishing along with the legends that gave birth to that perception **The Trilateral Observer** ,1979 *Mother Jones Magazine* ,1981-01 *Mother Jones* is an award winning national magazine widely respected for its groundbreaking
