Becker, 2011-09-13 13 Chilling Tales is a book of original short stories Most all of these tales were based on concepts that might possibly be expanded to novels Since the paranormal has many layers of interest this book samples a variety We have a vampire ghosts a werewolf the walking dead a gypsy a Ouija board time travel Bigfoot and even Death himself The endings will sneak up on you and are meant to shock or surprise Many of the characters involved might resemble people you know It is the authors intent to take you on a brief journey to visit things that we may never understand In some cases these places may seem familiar and the settings realistic which makes it all the more frightening Many of these stories begin in the world of collectables where nave individuals purchase items from people they dont really know They could be people who may have hidden motivations lying below the surface Then again it might be the item itself Who was the former owner Were they good or evil and still clinging to this item from the beyond All too often a person buys an antique or collectable and gets much more than they expected but when their realization takes place it is far too late As a bonus there is a 14th story The author dispels a true urban legend and ghost story Incredibly it is an urban legend that was created unintentionally by author himself An urban legend which he learned about 30 years later You will read 13 Chilling tales and experience a spectrum of entertainment Afterward you may never view a flea market antique fair garage sale or second store the same ever again **Where the Wild Animals is Plentiful** Mattie May Jordan, 1999 Elisa Moore Baldwin provides an introduction that traces Jordan family history and describes economic social and political conditions during the period

Because few first person accounts exist of the life of poor whites this diary will be invaluable to students of southern and women's history no comparable work exists for this part of Alabama during this era
