**Anthropology and Authority**, 2022-06-08 This volume on anthropology and authority in the writings of Søren Kierkegaard 1813-1855 offers its reader nineteen timely discussions of two fundamental categories pertaining to the literary philosophical and theological production of this prominent 19th century Danish thinker whose vast influence upon 20th century intellectual life continues to grow as the new millennium approaches The volume's nineteen contributors from Canada Denmark Great Britain Holland Hungary Italy and the United States inquire into such complex problematics in Kierkegaard's oeuvre as the interrelationship between the human the divine and the spiritual between the secular and the Christian between human and Christian love between state and church institutions and the single individual of faith and between this individual's concern for quality in civic and religious life and the quantitative forces of modern society's masses and crowds Special attention is given to the indisputable authority of God Christ and the apostles as opposed to the debatable authority or non authority of the author Of particular interest is the nexus between Kierkegaard's existential and religious concerns on the one hand and his intricate textual conceptions multifarious poetic strategies and various means of pseudonymous and indirect communication on the other Between the covers of *Anthropology and Authority* some chapters seek to refine received knowledge of Kierkegaard in such disciplines as theology and moral philosophy Conversely other chapters submit rather postmodern critiques of the author's stylistic and rhetorical devices A summary assessment of the nineteen contributions would fail to recognize this considerable methodological and theoretical diversity Instead the reader's access to the smorgasbord of insights has been facilitated by an introduction in which one of the American editors briefly outlines the individual contributions on a general historical and intellectual background Altogether the probing insights of *Anthropology and Authority* go to the core of Søren Kierkegaard's authorship Individual chapters either update previous responses to the many challenges presented by this work or the chapters face new challenges and/or present critical challenges on their own

*Renaissance* Sylvain Delcomminette, Pieter d'Hoine, Marc-Antoine Gavray, 2020-07-06 This volume explores the tremendous influence of Plato's Phaedrus on the philosophical, religious, scientific, and literary discussions in the West. Ranging from Plato's first readers over the Church Fathers and the Platonic commentators to Byzantine and Renaissance thinkers, the papers collected here introduce the reader to the first two millennia of the dialogue's reception history. Thirteen contributions by both junior and established scholars study the engagement with the Phaedrus by such major figures as Aristotle, Galen, Origen, Clemens of Alexandria, Plotinus, Augustine, Proclus, Psellus, Ficino, Erasmus, and many others. Together they cover the wide range of topics discussed in the dialogue: the value of myth and allegory, religion and theology, love and beauty, the soul and its immortality, teaching and learning, metaphysics and epistemology, rhetoric and dialectic, as well as the role and the limits of writing. By placing the dialogue in this broad perspective, the volume will appeal to readers interested in the Phaedrus itself as well as to classicists, literary theorists, and historians of philosophy, science, and religion concerned with the dialogue's reception history and its main protagonists.
