Where The Mirror Explodes:

Exploding Wires William G. Chace, Howard K. Moore, 2014-07-08 This book is presented primarily to record the papers of the Conference on the Exploding Wire Phenomenon conducted by the Air Force Cambridge Research Center in Boston Massachusetts on April 2 and 3 1959 A second and scarcely less important purpose of this book is to serve as a monograph on exploding wires Nowhere in any language is there a book or for that matter a section of a book on electrical wire explosions The growing interest in and importance of the phenomenon was indicated by the very gratifying response to the Conference invitations We hope this book reaching an even larger audience will fill a gap in the literature as well as serve as a record of the Conference A logical arrangement of the papers was extremely difficult to accomplish On whatever basis they were classified most papers could have been equally well placed in more than one category This difficulty was solved by arranging them in three broad classes If this book is to serve as a monograph some general background in the exploding wire phenomenon EWP is needed The Introduction was written to serve this purpose It is of course impossible to thank all those without whose help the Conference and this book would not have been possible

Culture and Explosion Juri Lotman, 2009-09-04 Culture and Explosion now appearing in English for the very first time is the final book written by the legendary semiotician Juri Lotman Originally published in Russian in 1992 a year before Lotman's death the volume puts forth a fundamental theory the semiotics of culture Proceeding from a model of communication Lotman extends the work of the renowned Tartu Moscow school that he founded showing not only how culture can be observed and described but also how it can be governed and guided In fact as Lotman demonstrates with copious examples the modelling system of culture has an immeasurably strong influence on the way that humans experience reality As usual Lotman's erudition is brought to bear on the theory of culture and the book comprises a host of well chosen illustrations from history literature art and right across the humanities The book is of interest to students and researchers in semiotics cultural literary studies and Russian studies as well as anyone with an interest in understanding contemporary intellectual life
