dictionary is the result of collaborative efforts across the globe. Over forty scholars from the United States, mainland China, and Taiwan, United Kingdom, Germany, France, Norway, Israel, and Malaysia contributed. They cover the full spectrum of Chinese industries from banking, finance, and investment, real estate, transportation, and infrastructure to manufacturing, telecommunications, media, agriculture, automobile, pharmaceutical, food, trade, service, and retail industries. The book includes not only business leaders from mainland China but also entrepreneurs from Hong Kong, Taiwan, and Southeast Asia who have strong ties with the Chinese economy. Because of the key roles they played in economic development, some leading economists and high-ranking government officials are also included. The editors do not shy away from controversial figures whose actions have had profound impacts on the Chinese economy and who may have gotten into legal problems later in their career. Scholars, practitioners, and librarians in international business, entrepreneurship, and Asian studies will find this volume an essential addition to their reference shelf. *World Casts Product*, 1990
