Ripeness? Lucie Podszun,2011-08-27 Many developing countries find themselves in seemingly intractable internal conflicts hindering them from moving on into a more stable secure and wealthy environment It seems that underdevelopment and conflict go hand in hand Underdevelopment most often implies large streams of development aid channeled into countries at war The work evaluates to what extent an increase in development aid affects conflict ripeness The research shows that the effect is ambivalent it depends on the conditions of provision whether it is positive or negative In general an increase in development aid decreases the intensity of one of the ingredients to conflict ripeness the mutually hurting stalemate However if embedded into a smart strategy an increase in development aid enhances the second ingredient to conflict ripeness the sense of a way out By that it counterbalances the negative effect and thus fosters the phase of ripeness creating an ideal starting position for a subsequent peace process *Mark Lane Express* ,1892 Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954 ,2003 **Notes and Queries: a Medium of Inter-communication for Literary Men, Artists, Antiquaries, Genealogists, Etc** ,1896 *The Electrical Engineer* ,1891 *Report* United States.
