Radway, Kevin Gaines, Barry Shank, Penny Von Eschen, 2009-03-09 American Studies is a vigorous bold account of the changes in the field of American Studies over the last thirty five years Through this set of carefully selected key essays by an editorial board of expert scholars the book demonstrates how changes in the field have produced new genealogies that tell different histories of both America and the study of America Charts the evolution of American Studies from the end of World War II to the present day by showcasing the best scholarship in this field An introductory essay by the distinguished editorial board highlights developments in the field and places each essay in its historical and theoretical context Explores topics such as American politics history culture race gender and working life Shows how changing perspectives have enabled older concepts to emerge in a different context In Face of the Facts Richard Wightman Fox, Robert B. Westbrook, Lee H. Hamilton, 2002-11-07 Recently there has been a renewed interest in moral inquiry among American scholars in a variety of disciplines This collection of accessible essays by scholars in philosophy political theory psychology history literary studies sociology religious studies anthropology and legal studies affords a view of the current state of moral inquiry in the American academy and it offers fresh departures for ethically informed interdisciplinary scholarship Seeking neither to reduce values to facts nor facts to values these essays aim to foster discussion about inquiry and moral judgment and demonstrate that moral inquiry need not be either dispassionate and value free or moralistic and preachy **The Journal of the Bombay Natural History Society** Bombay Natural History Society, 1887 **Tyrannosaurus Wrecks** Stuart Gibbs, 2021-03-02 The local police prove unhelpful when a 500 pound dinosaur skull vanishes from a secret excavation on Sage s family s ranch so Teddy and his friends conduct their own investigation **First Responder's Manual of Prehospital Trauma Care** Dinesh Vyas, 2018-01-01 First Responder s Manual of Prehospital Trauma Care is an easy to use education tool for all the conscientious citizens willing to serve their fellow companions in an adverse scenario of trauma and emergency The manual s target audience is firemen safety officers policemen teachers nurses drivers emergency room staffs medical and nursing students surgery residents and surgeons The founders of the book have stressed on the issues related to trauma which are described in a simple and understandable language It is basic but descriptive resource for layperson s first responders describing practical advice for the best care The focus of the manual is to educate people on the best standard of care in the prehospital settings and to learn methods of improvisation The authors have stressed on regularly confronted trauma situations in critical care through chapters on shock airway and circulation *The Poisonous Snakes of North America* Leonhard Stejneger, 1895 **Journal of the Bombay Natural History Society** Bombay Natural History Society, 1888 Snakes Alive Penny Clarke, Mark Bergin, Carolyn Scrace, 2002 Describes the physical characteristics behavior of various
