**Christopher Benson** Arthur Christopher Benson, 1914      **Keeping Faith** Brian Harding, 1990-12-31 For the millions who had fought in the Great War and for their families the land fit for heroes turned out to be an illusion instead there was suffering and deprivation Out of this on 1 July 1921 was born the British Legion In the years that followed the Legion fought for justice for the ex service community meanwhile seeking to protect them It introduced the Poppy Appeal and insisted on an annual act of national Remembrance for the fallen It went to extraordinary lengths to try to prevent another war ultimately finding itself in controversial discussions with Hitler Even after the Second World War the Legion s work was far from over the war disabled and the war widows seemed to have been forgotten in the new welfare state Remembrance itself appeared to be under threat as the memory of war receded There were more battles to be fought while conflicts such as the Gulf War brought fresh problems Perhaps most inspiring is the human aspect Those who have done the Legion s work represent every class of society from admirals and former private soldiers to poppy collectors But they have one thing in common compassion for all who have suffered in the service of the country This is their story too      **Art and Representation** John Willats, 1997 In *Art and Representation* John Willats presents a radically new theory of pictures To do this he has developed a precise vocabulary for describing the representational systems in pictures the ways in which artists

engineers photographers mapmakers and children represent objects His approach is derived from recent research in visual perception and artificial intelligence and Willats begins by clarifying the key distinction between the marks in a picture and the features of the scene that these marks represent The methods he uses are thus closer to those of a modern structural linguist or psycholinguist than to those of an art historian Using over 150 illustrations Willats analyzes the representational systems in pictures by artists from a wide variety of periods and cultures He then relates these systems to the mental processes of picture production and displaying an impressive grasp of more than one scholarly discipline shows how the Greek vase painters Chinese painters Giotto icon painters Picasso Paul Klee and David Hockney have put these systems to work But this book is not only about what systems artists use but also about why artists from different periods and cultures have used such different systems and why drawings by young children look so different from those by adults Willats argues that the representational systems can serve many different functions beyond that of merely providing a convincing illusion These include the use of anomalous pictorial devices such as inverted perspective which may be used for expressive reasons or to distance the viewer from the depicted scene by drawing attention to the picture as a painted surface Willats concludes that art historical changes and the developmental changes in children s drawings are not merely arbitrary nor are they driven by evolutionary forces Rather they are determined by the different functions that the representational systems in pictures can serve Like readers of Ernst Gombrich s famous *Art and Illusion* still available from Princeton University Press on which *Art and Representation* makes important theoretical advances or Rudolf Arnheim s *Art and Visual Perception* Willats s readers will find that they will never again return to their old ways of looking at pictures

Modern Archaics Shenqing Wu, 2020-10-26 After the collapse of the Qing dynasty in 1911 and the rise of a vernacular language movement most scholars and writers declared the classical Chinese poetic tradition to be dead But how could a longstanding high poetic form simply grind to a halt even in the face of tumultuous social change In this groundbreaking book Shengqing Wu explores the transformation of Chinese classical style poetry in the early twentieth century Drawing on extensive archival research into the poetry collections and literary journals of two generations of poets and critics Wu discusses the continuing significance of the classical form with its densely allusive and intricately wrought style She combines close readings of poems with a depiction of the cultural practices their authors participated in including poetry gatherings the use of mass media international travel and translation to show how the lyrical tradition was a dynamic force fully capable of engaging with modernity By examining the works and activities of previously neglected poets who maintained their commitment to traditional aesthetic ideals *Modern Archaics* illuminates the splendor of Chinese lyricism and highlights the mutually transformative power of the modern and the archaic

*The Accidental Palace* Deniz Türker, 2023-05-23 This book tells the story of Yıldız Palace in Istanbul the last and largest imperial residential complex of the Ottoman Empire Today the palace is physically fragmented and has been all but erased from Istanbul s urban memory At its peak however Yıldız was a global city

in miniature and the center of the empire's vast bureaucratic apparatus. Following a chronological arc from 1795 to 1909, *The Accidental Palace* shows how the site developed from a rural estate of the queen mothers into the heart of Ottoman government. Nominally the palace may have belonged to the rarefied realm of the Ottoman elite, but as Deniz T rker reveals, the development of the site was profoundly connected to Istanbul's urban history and to changing conceptions of empire, absolutism, diplomacy, reform, and the public. T rker explores these connections, framing Y ld z Palace and its grounds not only as a hermetic expression of imperial identity but also as a product of an increasingly globalized consumer culture defined by access to a vast number of goods and services across geographical boundaries. Drawn from archival research conducted in Y ld z's imperial library, *The Accidental Palace* provides important insights into a decisive moment in the palace's architectural and landscape history and demonstrates how Y ld z was inextricably tied to ideas of sovereignty, visibility, taste, and self-fashioning. It will appeal to specialists in the art, architecture, politics, and culture of nineteenth-century Turkey and the Ottoman Empire.

*Wang Yangming* Jingnan Shu, 2025-04-05. This book offers a dynamic portrayal of the preeminent Neo-Confucian Wang Yangming's philosophy of the heartmind. Through the life and times of this prodigious Ming Dynasty figure, from his early literary achievements and pursuit of Buddhist and Daoist ideals to his later success in warfare, virtuous leadership, and tragic struggle against dynastic corruption, the author traces the many stages of the development and application of Wang's Confucian thinking. Its systematic study of the context through which Wang's thought matured and was received includes detailed accounts of his inheritance of earlier heartmind philosophy and his pedagogical as well as personal relations with many distinguished disciples. A concise edition of the author's three-volume *Biography of Yangming: The Redemption of Mind*, this book draws on a wealth of new information to overturn the traditional understanding of Wang Yangming that dominated the past 500 years.

*The Java Man* Jamie James, 2004. For more than a hundred years, nothing has changed at Thistlethwaite, a gloomy old mansion in rural northwest England that shelters a society of poets and scholars with lots of money at their disposal but little common sense. Then a mysterious stranger, a poet from Java who has won a fellowship from the society, arrives in their midst. Noor brings with him healing potions, a magic kris, and a bawdy ancient epic, fascinating glimpses of a world utterly unknown to the innocent inhabitants of Thistlethwaite. One by one, they fall under Noor's spell, especially Tildy, the society's 60-year-old director who thought she had learned to live without love. When a scandal threatens to shut down Thistlethwaite forever, Noor comes to the rescue, leading a merry chase that careens from a ruined castle in the wilds of England to the luxurious watering holes of Singapore to a chaotic household in Yogyakarta.
