Children's Picture Books and Contemporary Egyptian Society Yasmine Motawy, 2025-02-25 A social and political history of two decades of Egyptian neoliberalism through children's picture books published in Egypt in the post 2000 era Children's picture books are some of the most transparently ideological materials available to parents and educators and as cultural objects they are an expression of the zeitgeist of a particular era They reveal much about the hopes values and aspirations of the society that produces them as well as that society's vision of its place in the wider world at large Children's Picture Books and Contemporary Egyptian Society examines a new wave of Egyptian picture books that was published in the current century to see how these books responded to larger societal trends and transformations in Egypt as well as to explore the ideologies that lie behind them Yasmine Motawy argues that a host of factors including the growth of gated communities and international schooling the proliferation of lucrative literary awards returning Gulf migrants television dramas and nationwide reading advocacy initiatives helped give rise to a new kind of children's picture book in Egypt Motawy focuses on three clusters of selected picture books to investigate the extent to which these books reproduce hegemonic discourses or alternatively open up new horizons of childhood agency and societal transformation The first cluster includes books that directly socialize the child by showing them how things are done in both the domestic sphere and the increasing globalized spaces that children frequent with their families The second cluster aims at reframing cultural notions around femininity through the retelling of folk and fairy tales while the third cluster addresses children's abilities to assess the impact of their actions on their environment and invites them to examine their personal suitability to positions of power and stewardship

Tales for Fairies Alba Morollón Díaz-Faes, 2026-01-13 A groundbreaking exploration of how classic fairy tales have been transformed to illuminate and celebrate queer identities This scholarly account provides a trailblazing examination of how contemporary authors artists and creators have reclaimed the fairy tale for queer audiences Alba Morollón Díaz-Faes examines the queer threads in classic fairy tales like those in the works of Giambattista Basile the Brothers Grimm and Marie Catherine d'Aulnoy while tracing how queer communities have reshaped these stories to reflect changing social and political realities from the 1990s to the present This comprehensive study historicizes three periods of queer transformation of the fairy tale the first wave of fairy tale publications for a predominantly gay male readership in the 1990s a second wave in the 2000s that navigated queer politics through nuanced tales of monstrosity and heroism and a third wave in the 2010s of online queer communities circulating creative contestations to Disney's fairy tales With case studies from film to text to social media Díaz-Faes demonstrates how the inherent fluidity in fairy tales allows for the amplification of queer voices and experiences Ultimately *Tales for Fairies* not only reveals the long standing compatibility between queerness and the fairy tale but also charts an evolving landscape where imagination activism and retelling intersect to create a vibrant tradition of queer enchantment
