A Three-Pipe Problem Julian Symons, 2013 Small time actor Sheridan Haynes has a rather unhealthy preoccupation with Sherlock Holmes So when the chance comes for him to play the famous detective in a TV series it seems his dreams have come true And when London becomes plagued by a series of unsolved murders well it seems only natural for him to take his role into real life Is this a case of a laughable and misguided actor or is Sheridan actually on to something

The Green Popular Penguins Story It was in 1935 when Allen Lane stood on a British railway platform looking for something good to read on his journey His choice was limited to popular magazines and poor quality paperbacks Lane s disappointment at the range of books available led him to found a company and change the world In 1935 the Penguin was born but it took until the late 1940s for the Crime and Mystery series to emerge The genre thrived in the post war austerity of the 1940s and reached heights of popularity by the 1960s Suspense compelling plots and captivating characters ensure that once again you need look no further than the Penguin logo for the scene of the perfect crime

So What? Kevin Duncan, 2008-02-28 So What gets straight to the point so you can cut through the noise and nonsense of work Much of what we learn in our formative years is unlearnt in later life As grown ups we are often unable to answer the simplest of questions in a clear direct way and frequently have no idea why we are doing something This can lead to crippling inefficiency in business and goes some way to explaining why so many people spend so much time doing things that have no bearing on the true purpose by behaving in a genuinely inquisitive way you can get right to the heart of the matter and save yourself hours days and even months of anguish The questions So what Why How and When can be hugely effective when applied in the right context and this book shows you how to use them Once all the right questions have been posed there is a final sure fire method for testing whether something is relevant and helpful By completing the sentence Something must be wrong if it is simple to work out if you are wasting your time For example Something must be wrong if I don t want to go to work in the morning So What shows you how to become truly inquisitive again So let the questions roll Pay attention to what the answers are Learn from them and you will immediately improve your prospects of finally getting somewhere in life
