Through Divided Minds:

Divided Minds Pamela Spiro Wagner, Carolyn S. Spiro, 2006-08-08 A riveting true story of sisters who were identical until the voices began Growing up in the fifties Carolyn Spiro was always in the shadow of her more intellectually dominant and socially outgoing twin Pamela But as the twins approached adolescence Pamela began to suffer the initial symptoms of schizophrenia hearing disembodied voices that haunted her for years and culminated during her freshman year of college at Brown University where she had her first major breakdown and hospitalization Pamela s illness allowed Carolyn to enter the spotlight that had for so long been focused on her sister Exceeding everyone s expectations Carolyn graduated from Harvard Medical School and forged a successful career in psychiatry Despite Pamela s estrangement from the rest of her family the sisters remained very close bonded with the twin glue calling each other several times a week and visiting as frequently as possible Carolyn continued to believe in the humanity of her sister not merely in her illness and Pamela responded Told in the alternating voices of the sisters *Divided Minds* is a heartbreaking account of the far reaches of madness as well as the depths of ambivalence and love between twins It is a true and unusually frank story of identical twins with very different identities and wildly different experiences of the world around them It is one of the most compelling histories of two such siblings in the canon of writing on mental illness

The Divided Mind of the Black Church Raphael G. Warnock, 2020-11-03 A revealing look at the identity and mission of the Black church What is the true nature and mission of the church Is its proper Christian purpose to save souls or to transform the social order This question is especially fraught when the church is one built by an enslaved people and formed from its beginning at the center of an oppressed community s fight for personhood and freedom Such is the central tension in the identity and mission of the Black church in the United States For decades the Black church and Black theology have held each other at arm s length Black theology has emphasized the role of Christian faith in addressing racism and other forms of oppression arguing that Jesus urged his disciples to seek the freedom of all peoples Meanwhile the Black church even when focused on social concerns has often emphasized personal piety rather than social protest With the rising influence of white

evangelicalism biblical fundamentalism and the prosperity gospel the divide has become even more pronounced In *The Divided Mind of the Black Church* Raphael G Warnock Senior Pastor of the historic Ebenezer Baptist Church the spiritual home of the Rev Dr Martin Luther King Jr traces the historical significance of the rise and development of Black theology as an important conversation partner for the Black church Calling for honest dialogue between Black and womanist theologians and Black pastors this fresh theological treatment demands a new look at the church s essential mission

Corra Harris and the Divided Mind of the New South Catherine Oglesby,2008 Corra Harris 1869 1935 was one of the most widely published and nationally popular women writers in the United States *A Circuit Rider s Wife* 1910 was Georgia s most celebrated novel for nearly three decades Now little read and almost forgotten Harris s life offers a fascinating glimpse into a world nearly unimaginable to us today In her writing Harris poignantly and often humorously captured the paradoxes characteristic of the New South a time and place of radically divergent goals Pressed by national and economic demands to modernize and regional desire to hold on to the past leaders struggled at the turn of the century to reconcile competing goals Issues of race class and gender found in Harris s writing were at the heart of the struggle In depicting the complexities of Harris s era her life and her personality historian Catherine Oglesby offers a remarkable insight into early twentieth century literature and culture She demonstrates the ways Harris s work and life both differed from and were the same as other southern women writers and reveals the ways time and place intersect with race class gender and other variables in the forging of identity
