The Soviet Military System Jacques Sapir, 1991 **Red Banner** Christopher N. Donnelly, 1988 Fort Ller om opbygningen af den tidligere Sovjetunions milit re styrker herunder doktriner uddannelse v bensystemer m m **Red Army and Society** Ellen Jones, 2021-01-26 This book first published in 1985 is the first full length study of the Soviet Armed Forces as a social institution Using military manpower as a substantive focus it identifies those characteristics that the Soviet military shared with counterparts in non communist systems and those that were unique to the society and political culture in which it was embedded The discussion encompasses defence policy making as a whole and focuses on conscription policy the characteristics of the professional military the role of the political officer the mechanics of political socialization within the Red Army and the experience of ethnic minorities in the armed forces This analysis provides a window through which we can observe the broader military system at work how that system affects and in turn is affected by the economic social and political life of the Soviet Union It contributes to our understanding of civil military relations in communist systems and to our knowledge of Soviet political and social trends **Soviet Military Power** ,1988 [Soviet Military Power](#) ,1984 *Soviet Troop Control--the Role of Command Technology in the Soviet Military System* John Hemsley, 1982 Brigadier Hemsley besk ftiger sig prim rt med den teoretiske og praktiske kontrol i milit r sammenh ng Sovjetisk ledelseskoncept effektivitet sm ling anvendelse af systemteori og datateknologiens udvikling [Soviet Military Psychiatry](#) Richard A. Alvarez, 2000 Alvarez politics Saint Mary s College of California traces one chapter in the history of cryptology Drawing upon military and intelligence archives interviews with retired and active cryptanalysts and recently declassified cryptologic documents he examines the contributions that the U S Army s top secret Signal Intelligence Service SIS made to the war effort before and after World War II Alvarez traces the development of the SIS and describes the code breaking process He also considers the relationship between intelligence and foreign policy *Problems of Communism* ,1984 **Soviet Military Reform in the Twentieth Century** Raymond J. Swider, 1992-11-30 This concise history of the major military reforms in the Soviet Union in the twentieth century fills an essential gap in scholarly studies on the subject and provides a model for analyzing past and future doctrine force structure and technology and command and control tactics This study should be a benchmark for measuring and identifying reforms in three key periods It is intended for historians and analysts in military affairs political scientists and scholars dealing with Soviet Russian and the new independent states in the region This invaluable history analyzes three periods of fundamental reform The Frunze reforms of the mid 1920s laid the institutional basis for the Red Army enabling it to develop into an integrated and professional army The post World War II reforms and the process of demobilization and mobilization permitted the Soviet Union to remain a nation under arms without hobbling its economy The revolution in military affairs in the Krushchev era illustrated Soviet accommodation to technological changes in warfare And

finally the process of reform and imperatives for reform are evident in the Gorbachev programs of perestroika and glasnost which were cut short The case studies are made against a backdrop of external and internal politics and economics Currently the centralized Soviet structures are disintegrating along lines by which they were developed earlier Whatever the future military reform and reorganization will relate closely to past practice There are many similarities between past and present challenges and many lessons to be learned
