Montessori's Philosophy Patrick R. Frierson,2025-02-27 Maria Montessori s Philosophy shows how Montessori s commitment to follow the child can be understood as a philosophical method for answering the great philosophical questions that confront human beings Patrick Frierson discusses historical influences on Montessori s philosophical views focusing on showing how her commitment to children led her to profound insights about a wide range of philosophical questions from foundational metaphysics to applied ethics and politics Her metaphysics grounded in the concept of life as she observes it developing in the child helps to address fundamental questions about the nature of the universe and the emergence of consciousness and value within it Her pragmatic empiricist epistemology provides the framework for a sophisticated account of various intellectual virtues conducive to excellent cognitive engagement with reality Her moral philosophy weaves together a broadly Nietzschean emphasis on self perfection with respect for all human beings and a strong interest in social solidarity In her philosophy of religion she follows children as they guide her to recognize a sense for the divine and the importance of sensorily informed religious practice Her politics informed by lifelong feminism and concern for peace shows how the education of the child is the key to cosmopolitan solidarity and lasting peace Her philosophy of technology while recognizing the dangers of technological development also sees in children the human potential and even vocation to develop technology for the betterment of the world *Teach Me to Do it Myself* Maja Pitamic,2004 Presents a collection of activities based on the principles of the Montessori method of education covering such skill areas as sensory perception body coordination language and numbers *Enhancing Cognitive Fitness in Adults* PAULA HARTMAN-STEIN,Asenath LaRue,2011-08-02 Late life is characterized by great diversity in memory and other cognitive functions Although a substantial proportion of older adults suffer from Alzheimer s disease or another form of dementia a majority retain a high level of cognitive skills throughout the life span Identifying factors that sustain and enhance cognitive well being is a growing area of original and translational research In 2009 there are as many as 5.2 million Americans living with Alzheimer s disease and that figure is expected to grow to as many as 16 million by 2050 One in six women and one in 10 men who live to be at

least age 55 will develop Alzheimer's disease in their remaining lifetime Approximately 10 million of the 78 million baby boomers who were alive in 2008 can expect to develop Alzheimer's disease Seventy percent of people with Alzheimer's disease live at home cared for by family and friends In 2008 9.8 million family members friends and neighbors provided unpaid care for someone with Alzheimer's disease or another form of dementia The direct costs to Medicare and Medicaid for care of people with Alzheimer's disease amount to more than 148 billion annually from Alzheimer's Association 2008 Alzheimer's Disease Facts and Figures This book will highlight the research foundations behind brain fitness interventions as well as showcase innovative community based programs to maintain and promote mental fitness and intervene with adults with cognitive impairment The emphasis is on illustrating the nuts and bolts of setting up and utilizing cognitive health programs in the community not just the laboratory
