[1]. 1835-1863* Sampson Low, James Douglas Stewart, 1872 *The English Catalogue of Books ...* Sampson Low, 1882 **Kliatt Young Adult Paperback Book Guide**, 2004 *The English Catalogue of Books*, 1882 *Science and Destabilization in the Modern American Gothic* David Oakes, 2000-06-30. The writers of Gothic literature reflect in their works the concerns and fears of the times in which they were created, not only making these tales cultural artifacts of a previous time but also showing how some sources of dread remain constant over the passage of centuries. This book examines how H.P. Lovecraft, Richard Matheson, and Stephen King have used science and technology in their modern Gothic works to destabilize the reader, that is, to create the sense of fear and dread at the heart of the Gothic genre. In doing so, these works force readers to ask disturbing questions about the society around them and to challenge long-accepted notions and belief systems.

[The Politics of Religious Apostasy](#) David G. Bromley, 1998-04-23. The current controversy surrounding new religions has brought to the forefront the role of apostates. These individuals leave highly controversial movements and assume roles in other organizations as public opponents against their former movements. This volume examines the motivations of the apostates, how they are recruited, and play out their roles, the kinds of narratives they construct to discredit their previous groups, and the impact of apostasy on the outcome of conflicts between movements and society.

Tough Girls Sherrie A. Inness, 1999. The author examines toughness and the image of the tough girl as developed in popular media and culture.

Breakfast in the Ruins Barry N. Malzberg, 2007. Barry N. Malzberg reflects back over four decades of writing science fiction, giving an insider's view of the field during that time, which few can match, both for its authority and for the sharp and witty way he describes the highs and lows of one science fiction writer's career. He also writes vivid profiles of writers and editors ranging from the titans who transformed the field, such as John W. Campbell, to once popular writers who are now all but forgotten, such as Hugo Award winner Mark Clifton. "If there is any particular cachet to my perspective, it comes because my career is perhaps more than some metaphorical. The original, shorter version of the book was widely praised, as by the *San Francisco Chronicle*. It contains literary criticism ranging over the whole history of the field; this is a mordant, brilliant book, and by *The Washington Post Book World*. Malzberg makes persuasively clear that the best of science fiction should be valued as literature, and nothing else. *Breakfast in the Ruins* is an indispensable book for every science fiction reader.

A Critical History of Television's The Twilight Zone, 1959-1964 Don Presnell, Marty McGee, 1998

Rod Serlings anthology series *The Twilight Zone* is recognized as one of the greatest shows of all time. Ostensibly science fiction, the show was that and much more: always intelligent and thought provoking, it used conventions and techniques of several genres—science fiction, fantasy, Westerns, horror, and film noir, among others—to explore such universal human issues as violence, fear, prejudice, love, death, and individual identity. This comprehensive reference work first gives a complete history of the show from its beginning in 1959 to its final 1964 season. The authors then provide critical commentaries and incisive analyses of all 156 episodes, along with the most complete listing of casts and credits ever published. Biographical profiles of writers and contributors comprise the book's third main section. Detailed appendices on writers, directors, actors, genres, and a listing of all episodes in order of original airdate are also included. An extensive bibliography and an exhaustive index conclude the work. *The Year's Best Fantasy and Horror*, 2002
