## **2026 Guide AI In Everyday Life:**

**What Is Artificial Intelligence in 2026?** Ayaz K.,2026-01-16 Artificial Intelligence is no longer a future concept it is part of everyday life This educational book explains what Artificial Intelligence is in 2026 how it works and how people interact with AI systems today It is written for complete beginners with no technical background Inside this book you will learn What Artificial Intelligence really means How AI systems learn and make decisions The difference between AI machine learning and automation Where AI is used in daily life and business Common myths and misunderstandings about AI The ethical and responsible use of AI This book does not require coding knowledge or technical experience It is designed as a clear simple and practical introduction to Artificial Intelligence Perfect for students beginners and anyone who wants to understand AI from zero in the modern world

**Handbook of Research on Equity in Computer Science in P-16 Education** Keengwe, Jared,Tran, Yune,2020-11-13 The growing trend for high quality computer science in school curricula has drawn recent attention in classrooms With an increasingly information based and global society computer science education coupled with computational thinking has become an integral part of an experience for all students given that these foundational concepts and skills intersect cross disciplinarily with a set of mental competencies that are relevant in their daily lives and work While many agree that these concepts should be taught in schools there are systematic inequities that exist to prevent students from accessing related computer science skills The Handbook of Research on Equity in Computer Science in P 16 Education is a comprehensive reference book that highlights relevant issues perspectives and challenges in P 16 environments that relate to the inequities that students face in accessing computer science or computational thinking and examines methods for challenging these inequities in hopes of allowing all students equal opportunities for learning these skills Additionally it explores the challenges and policies that are created to limit access and thus reinforce systems of power and privilege The chapters highlight issues perspectives and challenges faced in P 16 environments that include gender and racial imbalances population of growing computer science teachers who are predominantly white and male teacher preparation or lack of faculty expertise professional development programs and more It is intended for teacher educators K 12 teachers high school counselors college faculty in the computer science department school administrators curriculum and instructional designers directors of teaching and learning centers policymakers researchers and students [Let's Talk AI](#)

Barbara Steffen,Edward A. Lee,Bernhard Steffen,2025-10-27 This unique open access volume represents an interdisciplinary dialog with top class researchers and practitioners on the Artificial Intelligence revolution The contributions derive from structured interviews with community leaders who examine recent developments in AI and offer predictions about its impact on science technology business and society The interviewees leading thinkers and practitioners from fields such as Computer Science Software Engineering Philosophy Psychology and Law gathered at the multidisciplinary event AISoLA where they discussed developments in AI technologies tools and research and these exchanges were shaped into this coherent survey In

the debates surrounding the rapid advancement of AI it s clear that while there is much sharing of ideas in fact true cooperation and alignment is rare most fields still operate in silos Given the pervasive nature of AI it s critical that we move forward carefully to ensure that our decisions and progress are well considered This book serves as a call to action reminding us of our collective responsibility to shape the future The authors offer points of agreement and contrast the reader will better understand how we may still maintain control over technological progress in AI and its societal impact

**ChatGPT eBook** GURMEET SINGH DANG, *Advances in Data Science and Management* Samarjeet Borah,Sambit Kr. Mishra,Milan Tuba,Aniket Mahanti,Zdzislaw Polkowski,2025-10-16 This book includes high quality papers presented at the Third International Conference on Data Science and Management ICDSM 2024 organized by the Gandhi Institute for Education and Technology Bhubaneswar from December 13 14 2024 It features research in which data science is used to facilitate the decision making process in various application areas and covers a wide range of learning methods and their applications in a number of learning problems The empirical studies theoretical analyses and comparisons to psychological phenomena described contribute to the development of products to meet market demands The work is presented in two volumes
