Novi Michigan *The World Beyond Europe in the Romance Epics of Boiardo and Ariosto* Jo Ann Cavallo, 2013-10-28 This study offers a sustained examination of the presentation of eastern Asia the Middle East and northern Africa in two of the most important chivalric epics of the fifteenth and sixteenth centuries Matteo Maria Boiardo s Orlando Innamorato 1495 and Ludovico Ariosto s Orlando Furioso 1516 Comparing the narratological strategies used to depict non European characters in these stories Jo Ann Cavallo argues that Boiardo s cosmopolitan vision of humankind increasingly became replaced by Ariosto s crusading ideology which emphasized a binary opposition between Christians and Saracens Cavallo addresses the poems mixing of imaginary sites and the geographical reality of a rapidly expanding globe contextualizing them against current events and concerns as well as ancient medieval and Renaissance texts influential at the time As the prize committee for the Scaglione Publication Award for a Manuscript in Italian Literary Studies noted This articulate engaging and well documented study represents an important work of scholarship in its cross cultural considerations of Italian Renaissance epic poetry

**Academia versus the World Outside** Bruce Fleming, 2024-08-06 Academia versus the World Outside lays out the givens of the knowledge industry located within the ivory tower colleges and universities It then moves outside academia to consider this restricted world the way most people see it The contrast between these two views of academia explains and is at the basis of the left right animosity of our day The knowledge industry a creation of the post Enlightenment modern age

along with other industrial and post industrial enterprises is based on creating and adding to a store of knowledge as its own end This makes academia alien to the more random and personal nature of knowledge acquisition in our everyday lives as indeed every industry is alien to everyday life in the modern age Yet most academics are so immersed in the peculiar project they have chosen as their life s work that they are either unaware of or unsympathetic to the fact that people outside live very different lives with very different presuppositions Most non academics for their part find academia strange and for very good reason Academia versus the World Outside makes this contrast and conflict clear from both directions This book is aimed primarily at academics most of whom so take for granted the givens of what they do that they fail to understand why the vast majority of people outside find academia alien This has led to an increasingly hostile and utterly predictable left right political conflict academia tending increasingly left and the world outside increasingly right The goal of this book is to reduce the tension between both sides if read by non academics this book may help these understand the givens of a world as strange to everyday life as any other specialized industry in the modern age

**Think to New Worlds** Joshua Blu

Buhs,2024-07-03 This book is about Charles Fort his followers and the surprising influence they have had on science fiction the avant garde UFOlogy and more broadly on the role of spirituality and conspiracy in the modern world Fort was an author and maverick philosopher who wrote four non fiction books about anomalies rains of frogs mysterious disappearances unexplained lights in the sky for which he offered hypotheses that even he did not always accept as true His books developed into a monistic philosophy that denounced science as a machine for generating truth In his view science was a small part of a larger system in which truth and falsity were constantly transforming one into the other This was not a rejection of the modern world but instead its fulfillment Fort prophesied the next stage in intellectual evolution after the scientific era He inspired four overlapping groups members of the Fortean Society science fiction fans and writers avant garde artists and flying saucer enthusiasts First We Must Think to New Worlds takes up each of these groups in turn to ask How can the human imagination be expanded What is the fundamental structure of the universe And how does power move As they developed their responses Fort s followers mixed Forteanism with Fundamentalism New Agery and conspiracy as well as a host of other forms of modern enchantments such as the ironic imagination scientific wonder and Theosophical syncretism Each chapter is interrupted by and concludes with shorter sections that focus on particular Forteans or Fortean events as a way to deepen themes

*The Dynamics and Contradictions of Evangelisation in Africa* Peter Acho Awoh,2011 This book critically discusses missionary Christianity and colonization in Africa as twin enterprises with a common ambition While the colonialist set out to invest capital and reap profit the missionary desire was to tend and turn African souls from damnation It was this desire that drove the missionaries into the interior propelled by the belief that no land was too remote to escape their attention and vigilance It equally kept missionary zeal buoyant The clarification of the concept of salvation within the Roman Catholic Church during the Vatican II Council set in motion the current lethargy that has in some places crippled the mission itself In retrospect one can begin to wonder why Africans became Christians What reasons motivated the early adherents to cling to this foreign religion Were there some internal deficiencies in African traditional religions which the Africans hoped to remedy by joining the new religion Or was it just part of the wholesale flirting with whatever was foreign and perceived to be modern What baits were used by the missionaries to entice Africans Christianity posed a danger to many of the time honoured answers to African problems These were the values Africans converting to Christianity were expected to abandon Why have Christians continually returned to their abandoned roots in time of crisis This moving well argued richly documented and empirically substantiated study concludes by cautioning against the stubborn drive at radical conversion to Christianity with scant regard to the imperatives of enculturation
