World Communism A Critical Review:

World Communism Aleksandr Isaevich Solzhenitsyn, 1987 Library of Congress. Legislative Reference Service, 1958

Swiss Review of World Affairs, 1962 *Cosmopolitan Imaginaries and International Disorder* Aaron C McKeil, 2025-03-26 While the idea of a cosmopolitan order embracing all humankind is ancient after the Cold War it was widely believed to be an emerging future As global interdependence and interaction through new technologies increased literature of cosmopolitan globalization argued that these changes were setting the stage for a structural transformation of world politics Yet a revolt against globalism and increasingly divisive and unstable international order has dramatically contradicted this idea This presents a puzzle for International Relations theory Why have attempts to construct cosmopolitan order struggled to emerge in the modern global world *Cosmopolitan Imaginaries and International Disorder* argues that advocacy for cosmopolitan order reform in the modern world has struggled to recognize the political identities of states and populations and to legitimize its proposed political hierarchies As a result these efforts have been overwhelmed by states shoring up their power and remobilizing exclusionary nationalist identities especially when struggles are intensified in contexts of international instability and economic turmoil In developing a theory to explain these patterns of cosmopolitan politics this book offers insight into the limits and role of cosmopolitanism in a dividing international order after liberal globalism

International Communism and Transnational Solidarity: Radical Networks, Mass Movements and Global Politics, 1919-1939, 2016-11-21 This book provides an analysis of the articulation and organisation of radical international solidarity by organisations that were either connected to or had been established by the Communist International Comintern such as the International Red Aid the International Workers Relief the League Against Imperialism the International of Seamen and Harbour Workers and the International Trade Union Committee of Negro Workers The guiding light of these organisations was a radical interpretation of international solidarity usually in combination with concepts and visions of gender race and class as well as anti capitalism anti imperialism anti colonialism and anti fascism All of these new transnational networks form a controversial part of the contemporary history of international organisations Like the Comintern these international organisations had an ambiguous character that does not fit nicely into the traditional typologies of international organisations as they were neither international governmental organisations nor international non governmental organisations They constituted a radical continuation of the pre First World War Left and exemplified an attempt to implement the ideas and movements of a new type of radical international solidarity not only in Europe but on a global scale Contributors are Gleb J Albert Bernhard H Bayerlein Kasper Brask n Fredrik Petersson Holger Weiss

mondial des femmes contre la guerre et le fascisme CMF an international women s organisation concerned with confronting the impact of fascism on women and children across the globe Women played an essential role in the international struggle against fascism during the interwar period although a focus on the efforts of men and political figures by the historiography has largely overshadowed women s interventions against right wing dictatorships Through an examination of the committee s key figures strategies connections and campaigns this book offers a significant contribution to the histories of both women s activism and anti fascist activism by positioning the CMF as an important contributor to international political advocacy in the interwar period Further the group s association with international communism and the burgeoning Popular Front movement placed the CMF at the forefront of global debates about the threat posed by fascism and imperialism This book explores how the professional women activists and the working class women who populated the organisation developed a committee which advocated for women on a global scale It charts how the CMF utilised a variety of physical spaces and literary formats to co ordinate anti fascist actions through its expansive and ambitious campaigns The author also demonstrates the close connections between the Communist International and the CMF as a communist front organisation to provide context for the group s decision making and prioritisation of certain campaigns over others This book will be of interest to scholars of anti fascism feminism women s history communism activism internationalism anti imperialism and French history
