Creative Writer's Notebook John Gillard, 2018-03 *Creative Writer's Notebook* is a guided journal for aspiring authors in need of a creative workout. It contains 70 writing exercises for inspiration and stimulation tackling different aspects of action writing from perfecting dialogue and characterisation to experimenting with structure and language. Includes profiles of 20 great modern writers with analysis of what makes their style unique and what lessons you can take from their work.

Writers Writing Lil Brannon, 1982 This is a writing text based on how real writers write treating writing and revising as essentially the same thing. The book focuses on the choices writers make as they find and shape their meanings from an initial idea in their journals or freewriting through drafting and receiving responses from peers and teachers to the final publishable form. *Writers Writing* shows all drafts from journal entries to finished published pieces that students and professionals have written. Includes a chapter on journals that shows not only how writers have used their initial tentative observations and perceptions in their work but also how they have used their journals to chart their writing processes. Demonstrates how students can become better readers of their own texts. Shows how peer writing groups can help a writer generate ideas and revise a text. Shows students how to use teacher comments in revising their texts. Illustrates the choices that writers make in re-envisioning their work. Gives strategies for getting started and trying out different ways of saying something.
