Toppan leads the world photomask market with its superior technical capabilities

Along with the development of advanced technology nodes, multiple functions and higher level performances of electronic devices, much finer fabrication technologies are required in the manufacture of semiconductor products such as LSI. In this way, higher quality and more timely delivery is also required of photomasks as the masters for semiconductor production.

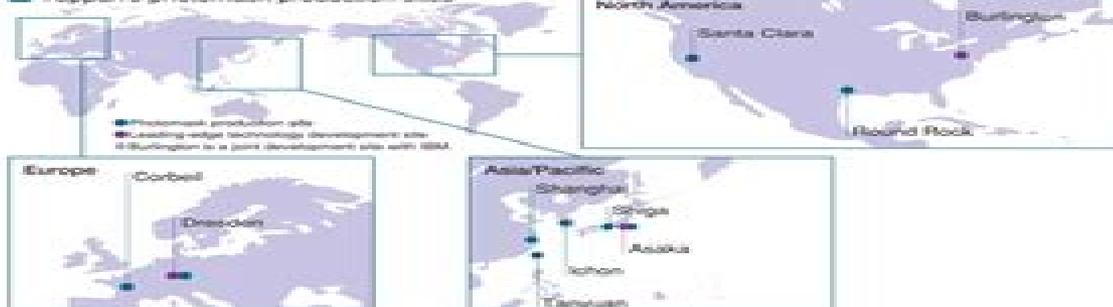

Toppan regards the establishment of leading-edge technologies as one of the most important issues in our management policy. We aim to differentiate our technologies from others by positioning our Asaka Plant (Saitama Prefecture in Japan) and Dresden Plant (Germany) as the base sites for technology development and by concentrating resources such as engineers and equipment to enhance the efficiency of such development.

In addition, we are actively tackling joint development of more extensive technologies with semiconductor manufacturers such as IBM as well as various equipment, material and software manufacturers.

Top in the world Toppan's global strategy

In order to provide the globalizing semiconductor market with prompt and meticulous services, Toppan has a manufacturing network of nine sites throughout the world. It is the world's sole supplier to have manufacturing sites in all of North America, Europe and the Asia/Pacific region.

Toppan Technical Design Center Co., Ltd.

Design service for LSI

Toppan, as an LSI designing partner for leading semiconductor manufacturers, has been providing designs and development of LSI for over the past thirty years. A large number of such successful development results encompasses various areas including analog LSI memories, LCDs, LED drivers and microcomputer logics. Particularly, in the fields of RF and analog mixed signal development, we are broadly designing power circuits, amplifier circuits, high frequency LSI and digital consolidated masters for system LSIs, and many others.

Toppan Technical Design Center is an expert in RF and analog mixed signal LSI design.

Device OEM

Toppan not only provides LSI design services but also undertakes the total solution services for device manufacturing including management of the entire process and supply of LSI chips. In addition to using its abundant skill in designing, Toppan, by incorporating various types of DPs (designs) as well as specialized analog technologies, enables its customers to realize a timely launch of new products that they have planned. Furthermore, we are able to realize unique LSIs through alliances with competent silicon foundries.
