*Senators on the Campaign Trail* Richard F. Fenno, 1998-02-01 This is a book about the politics of representative democracy written from the perspective of the politicians who make it work Typically political scientists study campaigns from the perspective of the voter and for the purpose of explaining election outcomes But campaigns also need to be studied from the perspective of the candidate for the purpose of understanding representation Richard F Fenno Jr traveled with ten U S senators as they campaigned in their home states using what he calls the drop in drop out tag along hang around method of research to present a developmental picture of their activities His focus here is on three such activities pursuing a career campaigning for office and building constituency connections Taken together the three constitute the political underpinnings of representative democracy Fenno describes the achievement the testing and the maintenance of representational relationships He examines challengers and incumbents winners and losers and motivations strategies and behaviors and he reports on differences similarities and patterns among them In studying the candidates varied careers campaigns and connections in stages and sequences and in depth and in allowing us to hear them reflect on these experiences Fenno has been able to offer rare insights into campaigns and elections insights very different from conventional ones that concentrate on the behavior of voters In its focus on the process of representative democracy *Senators on the Campaign Trail* offers a rich rounded developmental view of some high level individuals who work at the business of representation For scholars the book suggests some qualitative confirmation and added stimulation in forging generalizations about politicians For citizens the book argues for replacing the conventional blanket condemnation of our politicians so prevalent today with more discriminating judgments about what they do and why and to what purpose they do it

does so through the eyes of American women who faced it as a necessary evil Covering the period between 1935 and 1941 she examines how these women functioned as political actors even though they were excluded from positions of power through activism in women s organizations informal women s networks and even male dominated lobbying groups In the Great Debate over whether America should enter the war some women favored aid to the Allies not because they hoped for war but because they hoped aid would forestall more direct U S involvement but also because they believed war was preferable to a Nazi victory Paton Walsh shows that this activism involved some of the most prominent women of their day Elizabeth Cutter Morrow whose son in law Charles Lindbergh was an isolationist spokesman supported the revision of the Neutrality Acts to allow the sale of arms to the Allies and expressed her support in a national radio broadcast Soon other women joined this debate Esther Brunauer of the AAUW journalist Dorothy Thompson and organizations like the League of Women Voters and National Women s Trade Union League broke from the pacifist tradition to advocate American aid for the Allied cause Focusing on the conflict in Europe Paton Walsh shows how these women grasped the implications of the Lend Lease program for America s entry into the war but supported it nevertheless By late 1941 the Women s Division of the Fight for Freedom Committee had been established no longer merely advocating aid to Britain to keep American boys out of battle this organization supported direct American involvement in the war as a means of stopping Nazi oppression While most historians have focused on women s pacifism Paton Walsh connects women more directly to world events and shows how those interventionists reformulated maternalist ideas to justify and explain their beliefs Our War Too is a story of American women trying to reconcile the irreconcilable to preserve both their principles and their peace It expands our understanding of women as political actors and thinkers about foreign policy as it sheds new light on American public opinion over the build up to the war
