The Memory Thief Lauren Aguirre,2021-06-01 FINALIST FOR THE 2022 PEN E O WILSON LITERARY SCIENCE WRITING AWARD Aguirre writes clearly concisely and often cinematically The book succeeds in providing an accessible yet substantive look at memory science and offering glimpses of the often challenging process of biomedical investigation Science Sometimes it s not the discovery that s hard it s convincing others that you re right The Memory Thief chronicles an investigation into a rare and devastating amnesia first identified in a cluster of fentanyl overdose survivors When a handful of doctors embark on a quest to find out exactly what happened to these marginalized victims they encounter indifference and skepticism from the medical establishment But after many blind alleys and occasional strokes of good luck they go on to prove that opioids can damage the hippocampus a tiny brain region responsible for forming new memories This discovery may have implications for millions of people around the world Through the prism of this fascinating story Aguirre recounts the obstacles researchers so often confront when new ideas bump up against conventional wisdom She explains the elegant tricks scientists use to tease out the fundamental mechanisms of memory And finally she reveals why researchers now believe that a treatment for Alzheimer s is within reach

The Memory of Past Births Charles Johnston,1899 *Cultural Memory* Jeannette Marie Mageo,2001-02-01 How do foreign schemas and objects enter into indigenous ways of understanding the world How are the cultural self and the cultural other constructed in acts of remembering What is memory s role in the generation or degeneration of cultural meanings In contemporary Pacific societies these questions are not merely the subject of scholarly debate but speak to pressing life concerns This volume offers fruitful responses to such questions providing insights into colonial memory and its limitations and proposing explanations that illumine cultural memory processes These processes in turn elucidate ways of authoring cultural history and shed light on cultural identity which like other forms of identity is built from a remembered self Contributors explore valorizations of certain aspects of the remembered past amnesias about other aspects Both are part of the rhetoric of colonizing cultures and of cultural identity and nationhood in many contemporary Pacific societies The provocative analyses and responses offered here are both academic and personal close engagement with individuals and their ways of life is evident These are at once intellectual journeys through the colonial landscapes of Pacific memory and attempts to understand the problems of politics and personhood cultural identity and meaning for real people in real places Cultural Memory confronts many of the most central anthropological issues of our time
