**Uncertain Vision** Georgina Born, 2011-10-31 The BBC is the world's most famous and powerful cultural institution. Throughout its 75-year existence, it has attracted criticism, controversy, and political bullying, as well as epitomising globally the heights to which public non-commercial broadcasting can aspire. It remains the model for public broadcasters around the world. Uncertain Vision is a unique and fascinating portrait of this venerable institution in changing and uncertain times. It is based on the most extensive independent research ever conducted inside the BBC during which Georgina Born was allowed unprecedented access to employees from all ranks of the organisation and gives an extraordinary portrait of the corporation during the later 1990s, the last years of the regime of the former director general John Birt. Its insight into the workings and problems of the BBC is unparalleled, and it does not flinch from criticising the destructive policies of the Birt period. It promises to be a stimulating, controversial, and definitive portrait of the most fascinating period in the history of the greatest broadcasting organisation in the world.

Uncertain Vision Georgina Born, 2005 The BBC is the world's most famous cultural institution. Throughout its 80-year existence, it has attracted criticism, controversy, and political bullying, as well as epitomising globally the heights to which public broadcasting can aspire. This is a fascinating portrait of this venerable institution.

Public Issue Radio H. Chignell, 2011-09-02 Based on original and previously unseen written and sound archives and interviews with former and current radio producers and presenters, Public Issue Radio addresses the controversial question of the political leanings of current affairs programmes and asks if Analysis became an early platform for both Thatcherite and Blairite ideas.

Beyond Habermas Christian Emden, David R. Midgley, 2013 During the 1960s, the German philosopher Jürgen Habermas introduced the notion of a bourgeois public sphere in order to describe the symbolic arena of political life and conversation that originated with the cultural institutions of the early eighteenth century. Since then, the public sphere itself has become perhaps one of the most debated concepts at the very heart of modernity. For Habermas, the tension between the administrative power of the state with its understanding of sovereignty and the emerging institutions of the bourgeoisie—coffee houses, periodicals, encyclopedias, literary culture, etc.—was seen as being mediated by the public sphere, making it a symbolic site of public reasoning. This volume examines whether the public sphere remains a central explanatory model in the social sciences, political theory, and the humanities.

Strangling Aunty: Perilous Times for the Australian Broadcasting Corporation Virginia Small, 2021-09-24 Drawing on a wealth of academic research, statistics, and interviews with key Australian media people, including present and former Australian Broadcasting Corporation staffers, this book explores the transitions of the ABC under various types of organisational re-strategising, governance, and political shifts. The book provides the reader with an authoritative narrative as to how the ABC has lost its iconic status in Australian society and unfolds how the ABC has strayed from its respected public

charter which endowed the ABC with a distinctive and important role in informing educating and entertaining the Australian public Successive federal government funding cuts have shrunk staffing levels and services while it has pursued a corporatist model that mimics the trappings and practices of commercial media In that process it has become politicised and trivialised thereby threatening its demise The book is a unique and timely contribution at a time of dwindling interest for the funding of public assets everywhere There is no other book in the market that addresses the decline of the organisation the ABC and analyses the reasons for its demise within an organisational theoretical framework The book is written for an educated general audience with academics and media practitioners specifically in mind and has everyday applications for business organisations operating in the public sector by bringing together important findings of public funding budgets management and organisational strategies and evolution
