The Prestige of Violence Sally Bachner, 2011 In *The Prestige of Violence* Sally Bachner argues that starting in the 1960s American fiction laid claim to the status of serious literature by placing violence at the heart of its mission and then insisting that this violence could not be represented Bachner demonstrates how many of the most influential novels of this period are united by the dramatic opposition they draw between a debased and untrustworthy conventional language on the one hand and a violence that appears to be prelinguistic and unquestionable on the other Genocide terrorism war torture slavery rape and murder are major themes yet the writers insist that such events are unspeakable Bachner takes issue with the claim made within trauma studies that history is the site of violent trauma inaccessible to ordinary representation Instead she

argues both trauma studies and the fiction to which it responds institutionalize an inability to address violence Examining such works as Vladimir Nabokov s Pale Fire Thomas Pynchon s The Crying of Lot 49 Norman Mailer s Armies of the Night Margaret Atwood s Surfacing and Philip Roth s The Plot Against America Bachner locates the postwar prestige of violence in the disjunction between the privileged security of wealthier Americans and the violence perpetrated by the United States abroad The literary investment in unspeakable and often immaterial violence emerges in Bachner s readings as a complex and ideologically varied literary solution to the political geography of violence in our time The Yoruba-speaking Peoples of the Slave Coast of West Africa Alfred Burdon Ellis,1894 **The Wines of the Bible** A. M. Wilson,1877 Having been a teetotaler for more than thirty years the author s personal habits associations and sympathies have all been in favor of the unfermented theory but the facts encountered in the present investigation have constrained him reluctantly to conclude that so far as the wines of the ancients are concerned unfermented wine is a myth Preface **The Bell Telephone** Alexander Graham Bell,1908 No other source could ever equal Bell s personal and detailed description of the steps leading to his remarkable invention This description is included in Bell s testimony before various courts in the years 1879 1883 and 1887 when his exclusive patents rights were being questioned by the United States Government In preparing his defense Bell provided important insights into the process of his own experimentation leading to the first crude telephone In his introduction Charles H Swan describes Bell s testimony as the most detailed and best arranged statement of his telephone work Voice, Song, and Speech Lennox Browne,Emil Behnke,1891 **Arcana Coelestia** Emanuel Swedenborg,1892 **Gas World** ,1893 Digest ,1923
