What are habits? Why do we have them? How do they form? How can we change them? This chapter explores the science of habits and how they can be used to improve your life.

Why do we have habits?

Habits are automatic behaviors that we perform without thinking about them. They are formed through repetition and can be either good or bad.

How do habits form?

Habits are formed through a process called the habit loop. It consists of three parts: a cue, a routine, and a reward.
