The Development of Emotional Intelligence Nadja Reissland, 2013-02-28 How do children learn about the expression and meaning of emotions both happy and sad This book answers questions regarding the foundation of emotional intelligence and examines how children become emotionally literate as they are socialised into their family environment from birth to 2 years of age These early stages are vitally important in teaching children to understand themselves and others as well as how to relate to people and how to adapt to and cope with their immediate surroundings In order to examine the development of emotional intelligence the author presents an overview of the literature on the subject and in the second part of the book presents a case study in which the concepts introduced in the first part of the book are revisited Based on daily tape recorded conversations between a baby and her father the data demonstrate how over a two year period the child learns to express and understand emotions within social interactions This capacity to reason with emotions is examined through

four areas perceiving emotion integrating emotion understanding emotion and managing emotion The Development of Emotional Intelligence adds a new perspective to the theoretical debate on emotions and how they develop It will be of great interest to psychologists and any professionals dealing with families It will also be helpful reading for parents
