White Teacher:

Colormute Mica Pollock, 2009-04-11 This book considers in unprecedented detail one of the most confounding questions in American racial practice when to speak about people in racial terms Viewing race talk through the lens of a California high school and district Colormute draws on three years of ethnographic research on everyday race labeling in education Based on the author's experiences as a teacher as well as an anthropologist it discusses the role race plays in everyday and policy talk about such familiar topics as discipline achievement curriculum reform and educational inequality Pollock illustrates the wide variations in the way speakers use race labels Sometimes people use them without thinking twice at other moments they avoid them at all costs or use them only in the description of particular situations While a major concern of everyday race talk in schools is that racial descriptions will be inaccurate or inappropriate Pollock demonstrates that anxiously suppressing race words being what she terms colormute can also cause educators to reproduce the very racial inequities they abhor The book assists readers in cultivating a greater understanding of the pitfalls and possibilities of everyday race talk and clarifies previously murky discussions of colorblindness By bridging the gap between theory and practice Colormute will be enormously helpful in fostering ongoing conversations about dismantling racial inequality in America **Education & Jobs** D. W. Livingstone, 2009-01-01 Edited by one of the world's leading educational sociologists based on national survey data and close focus case studies this book makes a powerful case for new policy industrial and educational thinking Raewyn Connell University of Sydney **Racism by Another Name** Dorothy E. Hines, Mildred Boveda, Endia J. Lindo, 2021-08-17 This book examines the educational challenges faced by Black students in special education highlighting historical and contemporary issues It explores how race disability and gender intersect to create inequities and provides resources for advocacy It calls for active change to achieve just and equitable education **Clement F. Haynsworth, Jr** United States. Congress. Senate. Committee on the Judiciary, 1969 Considers nomination of Clement F Haynsworth Jr to be Associate Justice of Supreme Court Includes discussion of Judge Haynsworth's record on civil rights and labor cases Focuses on the propriety of Judge Haynsworth's hearing cases in which he allegedly had a financial interest most notably the case of Darlington Manufacturing Co vs the National Labor Relations Board in which Darlington Mills had business ties with the Carolina Vend A Matic Co in which Judge Haynsworth was a principal stockholder **YOU Wouldn't Understand** Sarah Pearce, 2005 You Wouldn't Understand looks at ethnic diversity in schools through the eyes of teachers rather than pupils It tells the story of one white teacher's developing understanding of how her own racial and ethnic background influenced the way she regarded and taught the mainly South Asian Muslim children in her classes She began with a belief that narrowness in the curriculum was her students problem but she came to see the bigger picture The book charts her gradual realization that many of the problems come from her own lack of understanding of race racism and her own racial identity The book explores the idea of whiteness as not a biological but a social construction and one which influences white people's ways of seeing the world in

often unnoticed ways The author relates whiteness to aspects of her own behaviour which she recorded in a diary over five years The book also considers the children s struggles to construct and understand their own emerging identities in this environment and the views of several other white teachers some of whom shared the author s confusion and doubts and others who were more confident about teaching in culturally diverse classrooms This searching analysis of the innards of whiteness and the way it affects how white teachers approach pupils who are not white is illuminating and important It should be required reading for all teacher trainers and all white trainee teachers as well as for white managers and teachers working in multi ethnic schools
