

Case Studies

- **Case study 1: Ahmed H.**

Ahmed is 18 years old and has an eating disorder. Ahmed is currently in a specialist treatment centre. He was referred to the unit following concerns about his severe weight loss.

It had been discovered that Ahmed would pretend to eat and then throw the food away when he thought that no one was looking.

Ahmed had previously had problems with his weight and had been bullied throughout school, due to his obesity. He is currently refusing to eat more than a small amount of food during the day.

- **Case study 2: Sarah K.**

Sarah is 42 years old and regularly attends a Community Psychiatric Clinic for support with her ongoing clinical depression. Sarah was emotionally and physically abused as a child, which has resulted in a low self-image and low self-esteem.

She constantly apologises, even though she has done nothing wrong and has days when life does not seem worth living. Sarah has twice attempted suicide.

Phonics Practice Case Studies:

Reading Randomised Controlled Trials Robert Savage, Amy Fox, Anneka Dawson, Helen Gray, Clare Huxley, 2025-03-03 In early 2021/22 the Flexible Phonics reading intervention a large scale randomised controlled trial took place in 118 schools in England and involved nearly 3 000 children This study aimed to provide valuable insights into the success of largely school based education trials The Flexible Phonics trial proved to be not only an important experiment in improving children s literacy but a case study in which the methodology of single randomised controlled trials in education can be considered Reading Randomised Controlled Trials investigates the complexities of conducting randomised controlled trials in the field of education and how they can be seen as a cultural activity The book emphasises the human operations decision making and actions that drive such trials which are often overlooked in published reports Through the case study of Flexible Phonics the book highlights the key differences between scaled educational trials and other types of trials such as pharmaceutical trials The additional focus on early childhood literacy is of significant educational importance particularly in the context of UK school partial closures in 2020 and 2021 during the Covid 19 pandemic Reading Randomised Controlled Trials is ultimately a unique resource on the implementation of randomised controlled trials in authentic school contexts and for the sustained improvement of practice in education

Applying Linguistics in the Classroom Aria Razfar, Joseph C.

Rumenapp, 2013-07-24 Making linguistics accessible and relevant to all teachers this text looks at language issues in the classroom through an applied sociocultural perspective focused on how language functions in society and in schools how it is used for what purposes and how teachers can understand their students language practices While touching on the key structural aspects of language phonetics phonology morphology and syntax it does not simply give an overview but rather provides a way to study and talk about language Each chapter includes practical steps and suggests tools for applying different kinds of linguistic knowledge in classrooms The activities and exercises are adaptable to elementary or high school settings Many examples focus on the intersection of math science and language Teacher case studies show how real teachers have used these concepts to inform teaching practices Given the increasing use of multimedia resources in today s schools multiple mediums are integrated to engage educators in learning about language The Companion Website provides a multitude of relevant resources that illustrate the diversity of language functions and debates about language in society
