Training The Nihilists:

Training the Nihilists Daniel R. Brower, 1975 Examines Russian education the term is used loosely to include the entire system of socialization and learning in the advanced and secondary schools in order to explain the factors producing the young rebels Where did they come from How did it happen that year after year the schools turned out a steady stream of recruits for the revolutionary movement preface

The Nihilist Imagination Peter C. Pozefsky, 2003 The Nihilist Imagination the first English language book devoted to this influential nineteenth century intellectual explores the convergence between historic developments in literature and politics the ways young contemporary readers approached novels such as Turgenev's Fathers and Sons when they were first published the evolution of Russian radicalism during one of its critical phases and the perceptions of government officials and members of educated society of this emerging radical threat

Nihilism Now! K. Ansell-Pearson, D. Morgan, 2000-07-04 This volume aims to inspire a return to the energetics of Nietzsche's prose and the critical intensity of his approach to nihilism and to give back to the future its rightful futurity For too long contemporary thought has been dominated by a depressed what is to be done All is regarded to be in vain nothing is deemed real there is nothing new seen under the sun Such a postmodern lament is easily confounded with an apathetic reluctance to think engagedly Hence our contributors draw on the variety of topical issues the future of life the nature of life forms the techno sciences the body religion as a way of tackling the question of nihilism's pertinence to us now

The French Revolution in Russian Intellectual Life James O'Connor, 2017-07-12 Sandwiched between the East and West Russian intellectuals have for centuries been divided geographically politically and culturally into two distinct groups the Slavophiles who rejected Western style democracy preferring a more holistic and abstract vision and the more rational and scientific minded Westernizers These two ideologies cut across the political spectrum of late nineteenth century Russia and competed for dominance in the country's intellectual life The tension created between these two opposing groups caused the feeling that violent upheaval was Russia's future In turn many began to think that Russia was possibly following the path of France and that a French style revolution might be possible on Russian soil In The French Revolution in Russian Intellectual Life Dmitry Shlapentokh describes the role that the French democratic revolution played in Russia's intellectual development by the end of the nineteenth century The revolutionary upheaval in Russia at the beginning of twentieth century and the continuous expansion of the West convinced most Russian intellectuals that the French Revolution in its democratic reading was indeed the pathway of history Yet the rise of totalitarian regimes and their expansion proved the validity of the sober vision of nineteenth century Russian intellectuals Some conservative Russian intellectuals believed that not only would Russia preserve its authoritarian regime but it would spread this regime all over the world In this context Shlapentokh argues the French Revolution with its democratic tradition was only a phenomenon of Western civilization and hence transitory The flirtation with Western ideology with its democratic polity and

market economy that followed in the wake of the collapse of the communist regime culminated in an increasing push for corporate authoritarianism and nationalism This work helps explain why Russia turned away from democratic to autocratic styles¹ *Nihilism and Culture* Johan Goudsblom,1980 *Love in the Time of the Apocalypse* Gregory Blecha,2005-02-17 Though a dystopian novel hovering over the imminent collapse of American civilization at the hands of a techno authoritarian state *Love in the Time of the Apocalypse* is also a book about the triumph of love and humor over the fatal gravitas of life and death It is part future nightmare part whimsical farce of the present *Love in the Time of the Apocalypse* is a work of playful conspiratorial pop delirium and pastiche full of lovable terrorists state run breeding houses Amish casinos vulgar action scenes the antichrist tongue and cheek hyper masculinity perhaps sit ups can save the world and a bourgeois love story to top it all Readers who love Science Fiction Dystopian Literature and Conspiracy Theory will find this book chock full of fresh and clever fare The speculative details are much more subtle than works on the post apocalypse The reader can feel both drawn into a bit of a future shock while at the same time remain anchored in a familiar albeit terrifying present Blecha has a way of pulling from current trends of government suppression of freedoms and stretching them ever so softly to their possible conclusion Thus rather than a world of utter totalitarianism such as Orwell's 1984 we are presented with a more plausible more friendly fascism that a society founded on consumerism and entertainment might bring about Without coming across as a writer with an agenda Gregory Blecha offers a strong but playful critique of State power the smothering inefficiency and corruption of bureaucracy and the role of the over stimulated under critical herd of middle class consumers and middle managers of a collapsing North America Tramps plague victims nihilists and nymphomaniacs along with the main character a WASP drawn into their exciting world make for the heroes of the story The villains are the lifeless and systematic processes of the Federal Government the Department of Health the Department of Overpopulation and the technological control systems of modern life and yet even these are rendered with an air of playfulness that allows the reader to smile as the world comes crumbling down *East/West Education* ,2001 *The Midnight Sun, the Tsar and the Nihilist* James Monroe Buckley,1886 *Puck* ,1882 **The Land of the Nihilist** William Eleroy Curtis,1888 *The French Revolution in Russian Intellectual Life* Dmitry Shlapentokh,1996-10-21 The interest of Russian intellectuals in the French Revolution demonstrates that some Russian thinkers of the 19th century had begun to question the concept of Russia's uniqueness Yet most of them came to believe that the French Revolution which they tended to equate with the Western experience was irrelevant not only to Russia but to the rest of the world as well They saw perhaps correctly that the Western experience with the French Revolution as its symbol was foreign to Russian destiny Most of the Russian intellectuals of that time had rightly foreseen Russia and to some degree the rest of the world's future as following an authoritarian totalitarian model of development *Condemned as a Nihilist* George Alfred Henty,1893 *Russian Nihilism and Exile Life in Siberia* James William Buel,1883 *Histoire Russe* ,1980 **Jewish Materialism** Eliyahu Stern,2018-01-01 Cover Half Title Title

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and suspenseful novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
