Technology Utilization United States. Congress. Senate. Committee on Aeronautical and Space Sciences. Subcommittee on Aerospace Technology and National Needs,1975 **Technology Utilization** United States. Congress. Senate. Aeronautical and Space Sciences Committee,1975 *Federal Technology Transfer Directory of Programs, Resources, Contact Points* Federal Council for Science and Technology (U.S.). Committee on Domestic Technology Transfer,1975 *Patent Technology* Juanita M. Branes,2007 The pace of US Technologies advancement is crucial to the US economy and its growth Productivity and international competitiveness are important contributing factors This book presents important analyses on patents technology transfer and industrial competitiveness **Helping America compete : the role of federal scientific & technical information.** ,1990 The United States must make better use of its scientific and technical information STI resources if it wishes to be competitive in world markets and maintain its leadership STI is an essential ingredient of the innovation process from education and research to product development and manufacturing It is a major product of the 65 billion per year the U S Government spends on research and development R researchers need ready access to STI if they are to stay at the cutting edge Many issues of our time health energy transportation and climate change require STI to understand the nature and complexities of the problem and to identify and assess possible solutions STI is important not only to scientists and engineers but to political business and other leaders who must make decisions related to science and technology and to the citizens who must live with the consequences of these decisions Improving the Transfer and Use of Scientific and Technical Information ,1986 **Directory of Federal Technology Transfer** Federal Coordinating Council for Science, Engineering, and Technology,1977 **Technology Transfer in Research and Development** James Alvin Jolly,John Wallis Creighton,1975 Partial Contents The Linker Role in the Technology Transfer Process Summary and Value of Technology Transfer Program A Case Study of the Power Line Disturbance Monitor A Study of Research Utilization in the U S Forest Service The President s Interns and their Perceived Value in the Technology Transfer Process Measuring the Effectiveness of Rapid Response Technology Transfer Program and A Study of the Technology Transfer Capability of Eleven Organizations **Diffusion, Transfer and Implementation of Information Technology** L. Levine,1994-03-17 The diffusion transfer and implementation of information and software technology is discussed in this volume Contributions have been sourced from academia government and industry specialists to afford a representation from as many perspectives as possible on research and practice The publication is divided into 7 parts each of the first 6 sections representing a major area of concern in current technology transfer of information The last chapter includes the summary reports of working sessions referred to in previous sections **Research in Education** ,1973 **The Relationship Between the Use of U.S. Government Technical Reports by U.S. Aerospace Engineers and Scientists and Selected Institutional and Sociometric Variables** Thomas E. Pinelli,1990 **Proceedings of the Conference on the Role of the Civil Engineer in**

Highway Safety American Society of Civil Engineers. Highway Division, 1983 Contains papers that focus on highway safety and the civil engineer's role in confronting and solving highway safety problems The six main areas covered are the federation the engineered factors in highway safety the engineer as an expert witness making safety work safer roads and the responsibility of the civil engineer in highway safety Innovation Through Technical and Scientific Information, 1989-02-22 This volume examines the role of scientific and technical information in the innovation process The authors are primarily concerned with federally supported scientific and technical information which can be used to improve technology development for nondefense purposes and thus help improve the international economic competitiveness of the United States As the authors note at the outset the federal government already makes a substantial investment in creating scientific and technical information Their study is designed to first evaluate the ways in which this investment can be better used to improve our innovation capacity and then to assess the policy implications for the federal government and private sector R D firms Divided into three principal parts the book begins by discussing the relationship between information and innovation with particular emphasis on the use of information in the private sector Part II characterizes existing federal policy related to information technology transfer and innovation and examines whether federally supported R D is responsive to the needs of technological development and economic competitiveness The final section addresses federal strategies to improve the use of federal R D in these areas Throughout the authors pay special attention to issues surrounding the relationships between information providers and users An important contribution to the ongoing debate on U S competitiveness abroad this book offers important new insights into the ways in which government policy might be redesigned to help foster higher levels of technological innovation among U S firms *Effective Dissemination of Clinical and Health Information*, 1994

Management Challenges for Africa in the Twenty-First Century Felix Moses Edoho, 2001 Edoho and his contributors examine the management challenges facing African governments and businesses on the eve of a new millennium As the authors make clear Africa's future is defined by how Africa does in the 21st century For Africa a major challenge is how to effectively and efficiently manage its vast wealth Africa is not poor because it is poor it is poor because it cannot manage its development process The shortages of managerial knowledge skills and talents are pervasive Consequently the region lacks the ability to organize production and run operations effectively and efficiently The task of developing managerial manpower in Africa is not only imperative it is urgent After outlining theoretical and applied perspectives on management the volume examines the public and private sector planning and management It then explores the globalization of management technology provides case studies of African management dilemmas looks at management ethics and morality and concludes with an analysis of the role of management in African national development As the authors make clear abundant resources will not of themselves usher in an African economic renaissance Africa needs skills to identify and analyze its resources to undertake investment and to establish and run all kinds of organizations Until Africa develops its

indigenous managerial talents development will continue to be elusive and the process traumatizing An important resource for scholars students and policy makers involved with African economic development **Global Technology Transfer** John Chumack,2002 Governments the world over fret continuously about the low level of transfer of technology especially within their own countries The general problem is military to industry although the variations are numerous Problems of presentation offering and support complicate an already byzantine world Yet somewhere within this dilemma lie the seeds of tomorrow s economic uptick Besides the nontrivial problems involved here the reluctance of the people having the technology to share it with someone who can profit from it stands out This book presents the issues and offers a comprehensive bibliography for easy access **The Transfer and Utilization of Technical Knowledge** Devendra Sahal,1982 Islamic Thought and Scientific Creativity ,1995 *Technology Transfer, Innovation, and Marketing in Science-oriented Spin-off Firms* Lawrence M. Lamont,1971 **Utilization of the Results of Public Research and Development** H. Corsten,K.-O. Junginger-Dittel,1988
