Structure Of Art:

The Structure of Art Jack Burnham, Charles Harper, Judith Benjamin Burnham, 1973 **The Structure of Art** The Open Courses Library, 2019-12-13 The Structure of Art Introduction to Art When we look at the art objects that people have made over the centuries and around the world we find they share some basic elements They exist they have substance they are either flat or in the round they use or do not use perspective line shape mass value color texture and so on Over time both artists and art critics have developed a set of terms to describe art objects and their design In this book we will develop an art specific vocabulary to use in identifying different types of art forms discerning the materials and processes used to create them understanding how the elements and principles of design are used by artists and recognizing how they convey meaning in visual art Chapter Outline Art Specific Vocabulary Art Forms Form And Composition The Open Courses Library introduces you to the best Open Source Courses **The Structure of Art** Jack Burnham, Charles Harper, Judith Benjamin Burnham, 1971 **Composition; a Series of Exercises in Art Structure for the Use of Students and** Arthur Wesley Dow, 2017-08-10 IN writing this book my main purpose is to set forth a way of thinking about art The most that such a book can do is to direct the thoughts awaken a sense of power and point to ways of controlling it The principles of art teaching here outlined might be illustrated in other ways and with better examples I hope the reader will see how each chapter can be developed into many sets of lessons The progressions can be varied materials changed lessons amplified and different designs chosen providing there is no sacrifice of essentials The book is based upon my experience in painting and teaching for more than twenty years The first edition of Composition was published in 1899 In this revision I have made many additions and used new illustrations without departing from theory or principles Composition was chosen as a title because that word expresses the idea upon which the method here presented is founded the putting together of lines masses and colors to make a harmony Design understood in its broad sense is a better word but popular usage has restricted it to decoration Composition building up of harmony is the fundamental process in all the fine arts I hold that art should be approached through composition rather than through imitative drawing The many different acts and processes combined in a work of art may be attacked and mastered one by one and thereby a power gained to handle them unconsciously when they must be used together If a few elements can be united harmoniously a step has been taken toward further creation

Composition Arthur Dow, 2017-07-24 2017 Reprint of 1929 Revised and Enlarged Edition PRINTED IN FULL COLOR as an exact facsimile of the original revised edition of 1929 not reproduced with Optical Recognition Software Dow was a very influential art teacher around the turn of the 19th century teaching at the Pratt Institute the New York Art Students League and Columbia University Teachers College His ideas were quite revolutionary for the period he taught that rather than copying nature art should be created by elements of the composition like line mass and color He wanted public leaders to see art as a living force in everyday life for all not a sort of traditional ornament for the few Dow suggested that art permit self

expression and include personal experience in its creation His ideas on Art were published in the 1899 book *Composition A Series of Exercises in Art Structure for the Use of Students and Teachers* In this book he explains that Composition expresses the idea upon which the method here presented is founded the putting together of lines masses and colors to make a harmony Composition building up of harmony is the fundamental process in all the fine arts A natural method is of exercises in progressive order first building up very simple harmonies Such a method of study includes all kinds of drawing design and painting It offers a means of training for the creative artist the teacher or one who studies art for the sake of culture
