Structural Classification Of Minerals:

Structural Classification of Minerals J. Lima-de-Faria, 2001-05-31 This book presents a complete development of the new structural classification of minerals which is based on the internal crystal structure and therefore is its natural classification. Because of the large domain of the mineral kingdom this book is divided in three volumes where the minerals are ordered from the structurally simple to the more complex. This work will be of particular interest to teachers and research workers in Mineralogy and also in Inorganic Crystal Structures in universities. *Structural Classification of Minerals* J.
