---

The following is the guidelines and requirements to stage an event in the Knysna Municipality which must be adhered to in the interest of public safety during the full duration of an event.

## **Applications for Stage and Events**

Any application to stage an event must be submitted to the Municipal Manager of the relevant local authority by the Organizer on an Application Form and adhere to the Events Application requirements.

Please consult the relevant documents and note the various minimum conditions and other requirements.

On receipt of an application the Municipal Manager or designated person will inform all possible rule players. The nature of certain events may determine that applications should be submitted earlier, in those cases the organizer should practice due diligence and notify the Municipal Manager as early as possible.

## **Permits and/or Gatherings**

Note: The Events application does not facilitate approvals for Permits and/or Gatherings.

Should permission be required to hold a procession and/or gathering an application must be submitted to the Municipal Manager in terms of Section 2 – Procession or Gatherings of the Regulation of Gatherings Act (Act 203 of 1995).

## **Events Exhibitors**

Please note the Events Application Form (page 6 of 6) and Requirements document must be consulted.

## **Erection of any type of structure (Marshall)**

In terms of Section 4 of the National Building Regulations Act (Act 103 of 1977), it is an offence for anyone to erect any type of structure without the prior permission of the local authority, and therefore approval must be obtained for the erection of temporary structures (e.g. marquees, stages, etc.) and a floor plan/outline must be submitted with each application.

## **Staging Events A Practical Guide:**

A Practical Guide to the NEC3 Engineering and Construction Contract Michael Rowlinson, 2011-04-06 Launched in 1991 the New Engineering Contract NEC has become one of the UK's leading standard forms of contract for major construction and civil engineering projects. Currently in the third edition, popularly known as NEC 3, it is a process-based construction contract embodying project management best practice and thus the basic philosophy behind the contract is different to the more adversarial principles and approach of other standard construction contracts. Written as a practical guide to the application of the procedures contained in NEC 3, this book will aid users in the transition from their use and understanding of the other standard construction contracts to the collaborative project management-based approach of the ECC. Written for anyone working in the construction industry working on a project under the ECC, it will be of interest to the complete construction supply chain including employers, construction professions, contractors, and sub-contractors. It will also be of interest to consultants and lawyers advising any of these parties either in the preparation of contract documentation or the resolution of problem situations which may arise. A practical guide to the application of the procedures contained in the NEC Engineering and Construction Contracts. Written specifically for people actually using and administering the NEC contracts rather than lawyers. Covers all the variations created by the Main and Secondary Options. *A Practical Guide to Tourism Destination Management* World Tourism Organization, 2007 One of UNWTO's top sellers.
