Taverns Corner In The Adirondacks:

The Adirondack Architecture Guide, Southern-Central Region Janet A. Null, 2017-06-01 Explores the architectural treasures of the Southern Central region of New York's Adirondack Park and places them in the context of Adirondack history and culture. The Adirondack Architecture Guide Southern Central Region provides a professional and insightful survey of the built environment of a unique area within New York's Adirondack Park. This book is the first field guide to the architecture of the Park, revealing the ordinary and the extraordinary, the remarkable buildings by prominent designers as well as the hidden, unexpected gems few know exist. Based on more than seven thousand miles of fieldwork and years of research, the guide comprises more than seven hundred sites, traversing the geographic range, socioeconomic strata, and historical span of the region from the late 1700s to the present. Organized according to clearly marked travel routes and fourteen tours on the ground and on the water, it features detailed maps and coordinates for each site, along with many beautiful photographs. Also included are eleven companion essays drawing on the expertise of professionals, local historians, and Adirondack residents that delve into the what, where, and why people built in the Adirondacks. In *The Adirondack Architecture Guide*, beloved landmarks share the pages with little-known architectural gems through a series of curated tours. Each one tracks the history and development of the Southern Central Adirondacks through its fascinating buildings, bridges, and byways. From first-time visitors to longtime residents, readers will find it packed with information designed to make the most of a side trip lasting a few hours or a weekend of exploring. This is a must-have source to guide your travels in one of the most beautiful and historic parts of New York: the Adirondack Park. Jay A. DiLorenzo, President, Preservation League of New York State. This remarkable book presents architecture broadly defined to include all man-made structures as the key to understanding the history and culture of a vast National Historic Landmark. We are introduced to the sublime Chestertown Church of the Good Shepherd, the delightful Custard's Last Stand, the earnest Wakely Mountain Fire Tower, and the grand aspirations of the Mary Persons House. A detailed picture of two hundred years in a region of romantic wilderness, industry, tourism, and everyday life emerges to offer a compelling vision of a unique place. This guide is not only for architecture buffs and explorers; it is a model of historical research that presents an unbiased picture of the rich diversity of a fascinating region. Frances Halsband, Kliment Halsband Architects.

Haunted Adirondacks Dennis Webster, 2021. Often shrouded in an eerie mist, the Adirondack Mountains are a perfect backdrop to the mysterious and the haunted. Troubled spirits of former patients roam the campus of the historic Dr. Trudeau Tuberculosis Sanatorium just outside Saranac Lake. The ghost of Grace Brown, tragically murdered by her lover in 1906, drifts over the waters of Big Moose Lake. A long-deceased runaway slave remains a guest at the Stagecoach Inn in Lake Placid. The Sagamore Resort on an island in Lake George has been welcoming vacationers since 1883, and many have never left. Held captive in a remote mansion by her husband until her death, Mary Rhinelander still wanders the burned-out ruins of her earthly confinement. Writer and paranormal investigator Dennis
