Taking Notice Poetry:

Take Note Robin Wallace, 2014 *Take Note: An Introduction to Music Through Active Listening* is an innovative music appreciation text designed to help students become active and attentive listeners through an in-depth examination of a recurring repertory of core musical works. By exploring each element of music through the lens of these core works, which were carefully selected to represent a variety of styles and genres, students deepen their understanding of how music works and develop strong listening skills that will enhance their enjoyment of music. Combining this listening-centered approach with an overview of Western music history, interactive activities, and in-text features that invite students to discover additional works outside of the classroom, *Take Note* prepares students for a lifetime of music appreciation. Distinctive features include a listening-centered approach that develops students' understanding of the basic elements of music; a recurring core repertory that explores the elements of music through a select group of musical works that reflect a variety of styles (piano, winds, brass, and percussion) and genres (jazz, lieder, world, and choral music); historical context that gives students an overview of Western music from the Medieval period to the present through a 3-chapter historical survey, timelines, and Focus On In History and Across the Arts boxes; If You Liked This Music boxes that encourage students to expand their playlists and listening skills beyond the core repertory by offering additional listening suggestions throughout the text; a Dashboard for *Take Note* that offers Spotify playlists for key selections in the text, plus auto-graded quizzes and other study materials. Poems Edited with Introductions, Various Readings and Notes by J. Schipper William Dunbar, 1891 **Ottoman Poets and Poetics in the Sixteenth Century** Kristof D'hulster, 2025-09-30 This book offers the first ever partial English translation and commentary of what are arguably the two most important Ottoman biographical dictionaries of poets: the *tezkires* of Asik Celebi and Latifi. While *tezkires* are mostly culled for their factual data, this book focuses on the non-entry materials, especially the prefaces. These offer intimate glimpses into the authors' lives, charting their professional ambitions, frustrations, and feuds set against the backdrop of the sixteenth-century Ottoman literary world, a world in which patrimonial relations made and broke careers; poetry was appraised, attacked, monetized, and stolen, and the ambitions of aspiring poets were fuelled and foiled. The two *tezkires* reflect this milieu, and their authors were personally acquainted, exchanging thoughts over their work and finally falling out over an accusation of plagiarism. The translations are supplemented with a reflection on the nature and translatability of Ottoman high prose, a discussion of the *tezkire* genre, and a detailed presentation of the two authors and their dictionaries. Through a novel study of these interconnected works, this book provides a panorama of Ottoman literary history as well as insights into the authors' personal struggles.
