landscape art to include sculptural forms and site specific installations In *Shifting Grounds* art historian Kate Morris argues that Indigenous artists are expanding and reconceptualizing the forms of the genre expressing Indigenous attitudes toward land and belonging even as they draw upon mainstream art practices The resulting works evoke all five senses from the overt sensuality of Kay WalkingStick's tactile paintings to the eerie soundscapes of Alan Michelson's videos to the immersive environments of Kent Monkman's dioramas this art resonates with a fully embodied and embedded subjectivity *Shifting Grounds* explores themes of presence and absence survival and vulnerability memory and commemoration and power and resistance illuminating the artists' engagement not only with land and landscape but also with the history of representation itself
