The 6-Step Roadmap to Building a Successful Business: Start-Up Guide Vince Hill,2019-10-22 What is a life worth living that results in driving into traffic to a place that you hate but aren t courageous enough to leave despite the fact you are undervalued and under appreciated not earning what you should be or passionate about what you do there What is a business that doesn t reflect a pay or life equivalent to the amount of work you are putting in and feels like you can t get ahead in both instances When is the last time you asked yourself if this 9 to 5 job is making you happy There s got to be more to life than a job that just sets individuals up for survival versus living Are you singing the following praise every week One day One day I m going to start a business One day I m going to quit this shitty job One day I am going to get rich One day I am going to get it done One thing you left out is that eventually that opportunity will no longer

exist or your current circumstance will become even more uncomfortable and require a deeper sacrifice the longer you hold off Your time is worth more than any dollar because you can't get it back Why do you think employers try to control your time with limited vacations such as ten days off or promise time you are entitled to but make you feel reluctant to use it Businesses on the other hand are failing to set themselves apart and paying more attention to the competition versus improving the way they do things Too many of us are overwhelmed with information and ideas because there are too many resources out there Although searching for the answers to all your problems on YouTube is great it won't hold you accountable Consuming information doesn't produce results Action does and that is what this book exists to help you do Take Action No more ideas or short term actions that are aimlessly executed every time you listen to a motivational YouTube video or audio book To avoid the overwhelm of information and consumption of multiple resources at one I condensed this book into the key elements needed to lay out the necessary foundation needed to start a business regardless of where you are Whether you are looking to scale your ideas passions skills and capabilities into a business create a side hustle or revamp your current business model This book will serve as a primary resource in helping you create and build a sustainable business step by step It is full of powerful and enriched exercises and tools to produce the results you are looking for within Regardless of whether you have little money limited time or shortage in available resources this book will help you overcome these obstacles Even if you are overwhelmed but refuse to allow your ambition to be buried by limitation this book will be your catalyst
