The Science Fiction Handbook M. Keith Booker, Anne-Marie Thomas, 2009-03-30 The Science Fiction Handbook offers a comprehensive and accessible survey of one of the literary world's most fascinating genres. Includes separate historical surveys of key subgenres including time travel narratives, post-apocalyptic and post-disaster narratives, and works of utopian and dystopian science fiction. Each subgenre survey includes an extensive list of relevant critical readings, recommended novels in the subgenre, and recommended films relevant to the subgenre. Features entries on a number of key science fiction authors and extensive discussion of major science fiction novels or sequences. Writers and works include Isaac Asimov, Margaret Atwood, George Orwell, Ursula K. Le Guin, *The War of the Worlds* (1898), *Starship Troopers* (1959), *Mars Trilogy* (1993), and many more. A Science Fiction Glossary completes this indispensable Handbook.

'My Mother was the Earth, My Father was the Sky' Nadia Majid, 2010 This study brings together three closely related aspects of Maori literature: myth, memory, and identity. It examines selected novels by Witi Ihimaera and Patricia Grace in order to trace an ever-developing Maori identity that has changed considerably over three decades of the Maori novel. This book demonstrates that an investigation of the construction of identity in literature benefits from a close look at the importance of Maori mythology as well as associated cultural and individual memories. Indicating that Maori fiction has become what Homi Bhabha terms a third space, this book verifies the links between novel, myth, and memory with the help of existing research in these areas in order to assess their importance for the reinterpretation of identity. The Maori novels that depict situations reflecting current issues are viewed as an experimental playground in which authors can explore a variety of solutions to tribal, societal, and political issues. This study establishes the early novels as reinterpretations of the past and guides to the future, and characterises the more recent novels as representing a move towards empowerment and pioneering that has not yet come to a conclusion.

Frankenstein, Education and Family. The Influence of Education and Family in Mary Shelley's "Frankenstein; or, The Modern Prometheus" Peter Altmannsdorfer,2025-07-14 Seminar paper from the year 2022 in the subject English Language and Literature Studies grade 2 3 University of Augsburg course Myth in British Literature language English abstract This paper explores how Mary Shelley s Frankenstein uses the Prometheus myth to engage with central Romantic era themes particularly those of education family and scientific ambition The novel presents Victor Frankenstein as a modern Prometheus whose pursuit of knowledge leads to tragic consequences Through intertextual references especially to classical mythology Enlightenment philosophy and literature like Paradise Lost Shelley critiques the dangers of unchecked scientific progress and the moral failures of a creator who abandons his creation The analysis emphasizes the dual role of education for Victor it becomes a

source of hubris and isolation for the creature education fosters empathy self awareness and a tragic longing for acceptance Similarly family is shown as a source of moral grounding Victor benefits from a loving but emotionally distant family while the creature suffers due to total social and emotional abandonment Shelley s narrative structure and interwoven myths highlight the importance of responsibility emotional education and belonging The paper concludes that Frankenstein is a cautionary tale about ethical responsibility in science and society Through her layered use of myth and Romantic ideals Mary Shelley illustrates how both education and family can either nurture or destroy depending on how they are embraced or denied
