**What's Wrong with Benevolence** David Stove, 2011-07-19 Is benevolence a virtue In many cases it appears to be so But when it comes to the enlarged benevolence of the Enlightenment David Stove argues that the answer is clearly no In this insightful provocative essay Stove builds a case for the claim that when benevolence is universal disinterested and external it regularly leads to the forced redistribution of wealth which in turn leads to decreased economic incentives lower rates of productivity and increased poverty As Stove points out there is an air of paradox in saying that benevolence may be a cause of poverty But there shouldn't be Good intentions alone are never sufficient to guarantee the success of one's endeavors Utopian schemes to reorganize the world have regularly ended in failure Easily the most important example of this phenomenon is twentieth century communism As Stove reminds us the attractiveness of communism the emotional fuel of communist revolutionaries for over a hundred years has always been exactly the same as the emotional fuel of every other utopianism the passionate desire to alleviate or abolish misery Yet communism was such a monumental failure that millions of people today are still suffering its consequences In this most prescient of essays Stove warns contemporary readers just how seductive universal political benevolence can be He also shows how the failure to understand the connection between benevolence and communism has led to many of the greatest social miseries of our age *What's Wrong with the Magnet?* Roman Ellis, 2017-07-15 Computer science is all around us at school at home and in the community This book gives readers the essential tools they need to understand the computer science concept of debugging Brilliant color photographs and accessible text will engage readers and allow them to connect deeply with the concept The computer science topic is paired with an age appropriate curricular topic to deepen readers learning experience and show how debugging works in the real world In this book readers will find out why a magnet isn't sticking to a certain surface This nonfiction title is paired with the fiction title *My Magnet* ISBN 9781538351468 The instructional guide on the inside front and back covers provides Vocabulary Background knowledge Text dependent questions Whole class activities and Independent activities **A Guide to What's Wrong with Economics** Edward Fullbrook, 2004 During a time of accelerating momentum for radical change in the study of economics A Guide to What's Wrong with Economics comprehensively re-examines the shortcomings of neoclassical economics and considers a number of alternative formulations *What's Wrong with Contemporary Art?* Peter Timms, 2004 The packing promotion and reception of contemporary art troubles Peter Timms Market demands dominate and art has been corrupted and trivialized The problem he argues extends to the way art is taught in art schools the art that artists make the collecting and curatorial methodologies of galleries and museums funding criteria the way that art is written about and the media's depiction of art *What's Wrong with Rights?* Nigel Biggar, 2020-09-25 Are natural rights nonsense on stilts as Jeremy Bentham memorably put it Must the very notion of a right be individualistic subverting the common good Should the right against torture be absolute even though the heavens fall Are human rights universal or merely expressions

of Western neo imperial arrogance Are rights ethically fundamental proudly impervious to changing circumstances Should judges strive to extend the reach of rights from civil Hamburg to anarchical Basra Should judicial oligarchies rather than legislatures decide controversial ethical issues by inventing novel rights Ought human rights advocates learn greater sympathy for the dilemmas facing those burdened with government These are the questions that *What's Wrong with Rights* addresses In doing so it draws upon resources in intellectual history legal philosophy moral philosophy moral theology human rights literature and the judgments of courts It ranges from debates about property in medieval Christendom through Confucian rights scepticism to contemporary discussions about the remedy for global hunger and the justification of killing And it straddles assisted dying in Canada the military occupation of Iraq and genocide in Rwanda *What's Wrong with Rights* concludes that much contemporary rights talk obscures the importance of fostering civic virtue corrodes military effectiveness subverts the democratic legitimacy of law proliferates publicly onerous rights and undermines their authority and credibility The solution to these problems lies in the abandonment of rights fundamentalism and the recovery of a richer public discourse about ethics one that includes talk about the duty and virtue of rights holders
