**Internet of Things, Smart Spaces, and Next Generation Networks and Systems** Yevgeni Koucheryavy,Ahmed Aziz,2024-05-26 This book constitutes the refereed proceedings of the 23rd International Conference on Next Generation Wired Wireless Networking NEW2AN 2023 and the 16th Conference on Internet of Things and Smart Spaces ruSMART 2023 held in Dubai United Arab Emirates in December 21 22 2023 The 67 full papers included in the joint proceedings were carefully reviewed and selected from 258 submissions They present a unique cross disciplinary mixture of telecommunications related research and science various aspects of next generation data networks while special attention is given to advanced wireless networking and applications

**Proceedings of the International Conference on Sustainability Innovation in Computing and Engineering (ICSICE 24)** S. Kannadhasan,P. Sivakumar,T. Saravanan,S. Senthil Kumar,2025-06-24 This is an open access book The International Conference on Sustainability Innovation in Computing and Engineering is a distinguished event that brings together leading experts researchers practitioners and innovators to explore the transformative role of computing and engineering in advancing sustainable solutions In today s world where environmental challenges are intensifying the need for technological innovation in addressing sustainability issues has never been more urgent This conference serves as a dynamic platform for sharing groundbreaking research showcasing innovative technologies and fostering cross disciplinary collaborations to accelerate sustainable development With a focus on integrating sustainability into the core of computing and engineering practices this conference will delve into

a wide array of topics such as sustainable computing technologies energy efficient systems green engineering practices and the role of data science in promoting sustainability It will also highlight the latest advancements in areas like artificial intelligence smart systems and digital solutions that contribute to environmental stewardship and social equity The conference aims to bridge the gap between theoretical research and practical application empowering participants to develop actionable strategies and innovative solutions that can be deployed in real world scenarios By facilitating robust discussions and knowledge exchange the conference seeks to inspire new ideas foster collaboration and catalyze the development of technologies that not only enhance efficiency and performance but also contribute to a more sustainable future It is an honor to host a gathering of visionary leaders in computing and engineering whose expertise and insights will guide the global movement toward a greener more sustainable world

**Recent Trends in Blockchain for Information Systems Security and Privacy** Amit Kumar Tyagi,Ajith Abraham,2021-11-23 Blockchain technology is an emerging distributed decentralized architecture and computing paradigm which has accelerated the development and application of cloud fog and edge computing artificial intelligence cyber physical systems social networking crowdsourcing and crowdsensing 5g trust management and finance and other many useful sectors Nowadays the primary blockchain technology uses are in information systems to keep information secure and private However many threats and vulnerabilities are facing blockchain in the past decade such 51% attacks double spending attacks etc The popularity and rapid development of blockchain brings many technical and regulatory challenges for research and academic communities The main goal of this book is to encourage both researchers and practitioners of Blockchain technology to share and exchange their experiences and recent studies between academia and industry The reader will be provided with the most up to date knowledge of blockchain in mainstream areas of security and privacy in the decentralized domain which is timely and essential this is due to the fact that the distributed and p2p applications are increasing day by day and the attackers adopt new mechanisms to threaten the security and privacy of the users in those environments This book provides a detailed explanation of security and privacy with respect to blockchain for information systems and will be an essential resource for students researchers and scientists studying blockchain uses in information systems and those wanting to explore the current state of play

**The Impact of Institutional Investors' Investment in Bitcoin on its Future** ,2023-10-13 Bachelor Thesis from the year 2023 in the subject Business economics Banking Stock Exchanges Insurance Accounting grade 1 0 Munich University of Applied Sciences language English abstract The primary objective of this research is to analyze the impact of institutional investors on the future of Bitcoin By investigating the relationship between institutional investors intentions and theoretical aspects of the Bitcoin ecosystem s characteristics a clear overview of the current situation is enabled and provide insights into the potential implications for the future development of Bitcoin The case studies on prominent institutional adopting Bitcoin are required to identify the purpose of their investment and cluster these into groups Specifically the research seeks to achieve

the following objectives Evaluate the impact of institutional investors on the asset s market price dynamics Examine the influence of institutional adoption on the general acceptance and traffic of Bitcoin network Identify potential risks and challenges from increased institutional involvement with Bitcoin in the future Created under the pseudonym Satoshi Nakamoto Bitcoin a decentralized digital currency has gained considerable attention and recognition since its inception in 2009 Bitcoin protocol creates a secure and transparent method of conducting financial transactions without intermediaries utilizing the underlying technology of blockchain The transactions in this case are data Bitcoin has transformed from a niche concept of financial inclusion worldwide to a universally acknowledged asset garnering attention from investors regulators and academics alike who seek to understand its potential influence on tomorrow s financial landscape In the early days people wondered whether Bitcoin could survive as the idea of decentralized money operates against the predominantly centralized existing monetary system Many countries have warned their citizens regarding the potential threats associated with Bitcoin citing it being used for criminal purposes and the currency s extreme volatility Several nations such as China have banned using and creating Bitcoin Despite the difficulties it has faced Bitcoin has kept going The initial concept has given rise to a novel crypto industry that now boasts an estimated value of over one trillion dollars Given its market capitalization Bitcoin has become one of the most valuable assets globally No longer do people discuss whether Bitcoin will still exist tomorrow Today legislators are discussing regulating the cryptocurrency industry to maximize returns

**Navigating Decentralized Finance** Pascal Egloff,Ernesto Turnes,Stefan Neumann,2025-11-24 Navigating Decentralized Finance From Blockchain to Crypto Assets and Tokenization provides an in depth overview of how blockchain and digital assets drive financial economics with a truly global approach This comprehensive textbook covers blockchain technologies infrastructure applications and regulatory and legal aspects offering both a quick introduction for beginners and numerous practical case studies to engage advanced students and working professionals Here after discussing blockchain fundamentals experts consider blockchain contracts scalability CBDCs tokenization stablecoins NFTs decentralized finance DeFi and the metaverse among other topics with applications explored across the financial world Each chapter adopts a consistent structure and pedagogy accompanied by over 120 illustrations across the book as well as a blockchain glossary An instructor website includes a complete set of lecture slides supporting undergraduate graduate certificate and faculty across the globe Features clear accessible explanations connecting blockchain technology and infrastructure with business and financial applications Showcases more than 120 unique graphics and practical case studies Adopts a global interdisciplinary perspective incorporating technical business finance IT legal regulation and strategy aspects Includes an instructor website with a complete set of lecture slides supporting undergraduate graduate certificate and professional course faculty

Exploring the Latest Trends in Management Literature Sudhir Rana,2022-11-14 Exploring the Latest Trends in Management Literature presents cutting edge literature reviews on the emerging concepts theories and research trends

across management disciplines      Decentralizing the Online Experience With Web3 Technologies Darwish, Dina, 2024-03-18

The internet has undergone a remarkable metamorphosis since its inception From the static web of the early days Web 1 0 to the interactive and social web Web 2 0 and now to the decentralized intelligent and immersive web Web3 the evolution has been nothing short of astounding This radical transformation has ushered in a new era in the digital realm one that promises to reshape how we learn communicate transact and interact with the world Decentralizing the Online Experience with Web3 Technologies offers an exploration of the Web3 era a transformative phase in the evolution of the internet Beginning with the foundational understanding of Web3 s core concepts technologies and tools readers embark on a journey through the driving forces fueling its growth The book demystifies blockchain technology elucidating its basics and the practicalities of wallets and transactions It delves into the world of cryptocurrencies particularly Ethereum and explores the disruptive potential of Decentralized Finance DeFi This knowledge empowers a diverse audience from students to professionals and researchers across information technology business education media social sciences and humanities      *Dhaka University Journal of Business Studies* ,2020      *Understanding Digital Signatures* Gail L. Grant, 1998 This volume explains the technology behind digital signatures and key infrastructures PKI These are the standards that make it absolutely safe to buy sell sign documents and exchange sensitive financial data on the Internet      Sociological Abstracts Leo P. Chall, 2002 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers      **NFT related art and the concept of the artist in a historical perspective** Lisa Wolf, 2024-01-17 Bachelor Thesis from the year 2023 in the subject Art History of Art grade 1 7 LMU Munich Kunstgeschichte language English abstract Since 2021 NFTs non fungible token have conquered the public and the art world with headlines found its way into international headlines The sale of Everydays The First 5000 Days has made Beeple the third most valuable living artist behind Jeff Koons and David Hockney displacing Gerhard Richter from the Top 3 Kolja Reichert art critic and curator critically questions in one of his articles the most expensive illustrator and thereby points to a significant problem The crypto market originally part of online trading had until then mainly dealt with sports trading cards fan merchandise and products from the gaming industry With the entry of NFTs into the traditional auction system the collective name NFT art has formed without quality standards entry barriers or criticism Based on this problem this Bachelor thesis deals with the overarching question of what makes an NFT creator an artist and how does this concept of an artist relate to historical concepts of artists To answer these questions case studies of two NFTs will be conducted While their producers have very different artistic backgrounds both NFTs were auctioned at renowned auction houses in 2021 Starting from the overarching question these two examples will be used to examine whether the work can be related to historical concepts of artists to what extent NFT technology has created a new concept of

the artist and if there are features outside of NFT technology that connect these two artworks      **Mathematical Reviews**  
,2006      **The Australian Computer Journal** ,1980      *Death/dying* ,1988      **Epilepsy** Jerome Engel (Jr.),1998 This text  
presents material on treating epilepsy and discusses the history of the condition and its epidemiology causes diagnosis and  
related diseases      **Urban Affairs Abstracts** ,1994      **Digest of Technical Papers** ,1961

Eventually, you will completely discover a further experience and feat by spending more cash. still when? pull off you take that you require to acquire those every needs past having significantly cash? Why dont you attempt to acquire something basic in the beginning?
