Britain the European Union the US and Japan are all analysed in separate chapters In addition to a close scrutiny of the evidence and arguments about capacity problems the book looks more widely to issues of business systems City industry relations and the role of international business and governance systems in shaping economic and industrial policy The book is divided into four main sections Demand Capacity and Employment Industrial Problems and Policies International Lessons and Policy Directions for Policy This book will inform economic policy debates on both sides of the Atlantic It will be useful reading for students of macro and industrial economics and for all those interested in the business or economic environment
