Survival Margaret Atwood, 1996 When first published in 1972 *Survival* was considered the most startling book ever written about Canadian literature Since then it has continued to be read and taught and it continues to shape the way Canadians look at themselves Distinguished provocative and written in effervescent compulsively readable prose *Survival* is simultaneously a book of criticism a manifesto and a collection of personal and subversive remarks Margaret Atwood begins by asking What have been the central preoccupations of our poetry and fiction Her answer is survival and victims Atwood applies this thesis in twelve brilliant witty and impassioned chapters from Moodie to MacLennan to Blais from Pratt to Purdy to Gibson she lights up familiar books in wholly new perspectives

Unruly Penelopes and the Ghosts Eva Darias-Beautell, 2012-08-06 This collection of essays studies the cultural and literary contexts of narrative texts produced in English Canada over the last forty years It takes as its starting point the nationalist movement of the 1960s and 70s when the supposed absence or weakness of a national sense became the touchstone for official discourses on the cultural identity of the country That type of metaphor provided the nation with the distinctive elements it was looking for and contributed to the creation of a sense of tradition that has survived to the present In the decades following the 1970s however critics artists and writers have repeatedly questioned such a model of national identity still fragile and in need of articulation by reading the nation from alternative perspectives such as multiculturalism environmentalism neo regionalism feminism or postcolonialism These contributors suggest that the artistic and cultural flowering Canada is experiencing at the beginning of the twenty first century is to a great extent based on the dismantlement of the images constructed to represent the nation only forty years ago Through their readings of representative primary texts their contextual analysis and their selected methodological tools the authors offer a tapestry of alternative approaches to that process of dismantlement Together they read as an unruly Penelopiad their unravelling readings self consciously interrogating Canada s lack of ghosts

Next-Generation Memory and Ukrainian Canadian Children's Historical Fiction Mateusz Świetlicki, 2023-03-24 This is the first book monograph devoted to Anglophone Ukrainian Canadian children s historical fiction published between 1991 and 2021 It consists of five chapters offering cross sectional and interdisciplinary

readings of 41 books novels novellas picturebooks short stories and a graphic novel The first three chapters focus on texts about the complex process of becoming Ukrainian Canadian showcasing the experiences of the first two waves of Ukrainian immigration to Canada including encounters with Indigenous Peoples and the First World War Internment The last two chapters are devoted to the significance of the cultural memory of the Holodomor the Great Famine of 1932 1933 and the Second World War for Ukrainian Canadians All the chapters demonstrate the entanglements of Ukrainian and Canadian history and point to the role Anglophone children s literature can play in preventing the symbolical seeds of memory from withering This volume argues that reading imagining and reimagining history can lead to the formation of beyond textual next generation memory Such memory created through reading is multidimensional as it involves the interpretation of both the present and the past by an individual whose reality has been directly or indirectly shaped by the past over which they have no influence Next generation memory is of anticipatory character which means that authors of historical fiction anticipate the readers both present day and future not to have direct links to any witnesses of the events they discuss and to have little knowledge of the transcultural character of the Ukrainian Canadian diaspora Canada Exposed Pierre Anctil, André Loiselle, Christopher Rolfe, 2009 Selected papers from the sixth biennial conference of the International Council for Canadian Studies held in Ottawa in May 2008

Essays on Canadian Writing , **The Dynamics of Religion** Peter Slater, 1978 A signal contribution to the burgeoning field of comparative philosophy of religion The Dynamics of Religion describes patterns of living faith in major world religions in a way which corrects misperceptions of them as archaic traditions trapped in the past Packed with telling examples this book shows how religions provide meaning and guidance for their followers what the fundamental constituents of all religions are including stories symbols solutions to the mystery of evil and more and how religions are dynamic processes that constantly change and adapt over time The author concludes that truth comes not from the dogmatic retelling of any single master story but from the dynamic interplay between stories old and new What is distinctive in each tradition is not any single set of unchanging meanings but the character of the life lived The Dynamics of Religion is exhilarating and essential reading for anyone interested in the way religion begins structure themselves and develop through time
