Steen, 2006-04-03 Are our elections for sale Americans have long asked this question in the face of skyrocketing campaign spending by candidates and parties Then in the 1990s came a wave of wealthy individuals whose deep pockets seemed to be buying political offices across the country Our worst suspicions were confirmed Or were they What effect do self financiers really have on electoral outcomes Jennifer Steen s authoritative empirical study of self financed candidates is a landmark in American politics Steen thoroughly dispels the notion that self funded candidates can buy legislative seats proving that the vast majority of self financiers do not win their elections Her book gives us a truer understanding of self financiers actual influence on campaign competition and rhetoric Jennifer A Steen is Assistant Professor of Political Science at Boston College and a former political

consultant She is one of the nation's leading authorities on self-financed candidates

**Game-Theoretic Models of the Political Influence of Interest Groups** Randolph Sloof, 1998-08-31 In this chapter the topic of this book is introduced Section 1.1 provides a brief and rather general motivation for the scientific project undertaken here Interest groups are a very popular object of scientific inquiry and they received already considerable research attention from scholars in political science as well as from researchers in economics Necessarily then this book adds to a literature which is already quite developed A detailed positioning in this literature of the theoretical material presented in this monograph will be given in Chapter 2 This second chapter will also by means of a review of the empirical literature provide a more general overview of the issues deemed to be important when studying the influence of interest groups on public policy The outline of the entire book is described in greater detail in Section 1.2 As most issues involved are more easily presented in later chapters this introductory chapter is kept brief

1.1 MOTIVATION Substantial political power is often attributed to interest groups Examples abound in both the economics and political science literature as well as in journalistic accounts and popular publications On many occasions the authors express concerns about the negative impact of interest groups on the democratic quality of government The interests of a small group are served at the expense of the interests of the general public the taxpayers is an often heard popular complaint

**New Directions in Congressional Politics** Jamie L. Carson, 2012-03-29 As the U.S. Congress has steadily evolved so too has our understanding of the institution New Directions in Congressional Politics offers an accessible overview of the current developments in our understanding of America's legislative branch Jamie L. Carson helps students bridge the gap between roles, rules, and outcomes by focusing on four themes woven throughout the importance of electoral considerations legislators' strategic behavior to accomplish objectives the unique challenges of Congress as a bicameral institution and the often overlooked policy outputs of the institution This book brings together leading scholars of Congress to provide a general overview of the entire field Each chapter covers the cutting edge developments on its respective topic As the political institution responsible for enacting laws the American public regularly looks to the U.S. Congress to address the important issues of the day The contributors in this volume help explain why staying atop the research trends help us better understand these issues

Rohde, 2006 The 2004 presidential election was one of the closest in American history but at the same time the Republicans made significant gains in Congress The authors explore the reasons for the Bush success discuss the prospects for long-term Republican dominance

**Congress and Democracy** David J. Vogler, Sidney R. Waldman, 1985 *The Logic of Politics Under Divided Government* Gary C. Jacobson, Samuel Kernell, 2008 A supplement to the Logic of American politics

**Attack Politics** Emmett H. Buell, Lee Sigelman, 2008 Ask most Americans and they'll tell you that presidential campaigns get dirtier and more negative with every election This text suggests that this may not be as true as we think and shows that over the last dozen elections negativity may have been well publicised but
