**Religion, Reality, and a Good Life** Eberhard Herrmann, 2004 Do we have access to reality as it is conceptualized by us Against metaphysical realism and postmodern relativism Eberhard Herrmann develops a pragmatic realism It stresses reality as conceptualized reality while at the same time not ruling out objectivity Contents include The Nature of the Enquiry The Philosophical Problem Formulated Religion and Philosophy Philosophy Reasons for and Against Metaphysical Realism Critique of Semantic Realism Pragmatic Realism Realism from an Internal Perspective Religious Metaphysical Realism Religious Metaphysical Anti Realism Religious Statements as Purported Assertions Christian Theism The Character of Religious Utterances Pragmatic Realism The Function of Religion Two Material Definitions of Truth Perspectives on Views of Life The Role of the Emotions in Our Conception of Reality Emotions and the Conceptualization of Values The Existentialist Theology of Paul Tillich.... Bernard Martin, 1963 *Post-Traumatic Growth to Psychological Well-Being*

Melanie Munroe, Michel Ferrari, 2022-10-25 This book explores why some people experience post traumatic growth leading to greater wisdom and others do not and suggests that a critical variable is how one copes with that trauma individuals who actively reflect on their experiences of trauma should develop higher levels of self transcendent wisdom This same dynamic has been shown both in research studies of post traumatic growth and by therapists working with people who have experienced trauma but these two bodies of work have rarely been brought into direct conversation with each other In this volume wisdom researchers and therapists with direct experience with trauma survivors comment on each other's ideas

about how coping with adversity can lead to wisdom and how their proposed models of developing wisdom incorporate the act of coping with a stressful or traumatic event Based on a synthetic integration of the recommendations in each chapter the book concludes with the introduction of a new conceptual framework that can better help even individuals who experience significant stressors in their life to cope well and develop wisdom that will be both theoretically robust and practically useful

and then proceeds to show that Marx's method is strikingly similar to that employed by Merleau-Ponty. It is Merleau-Ponty, however, who has developed this method in detail. Dr. Low thus turns to a thorough analysis and exposition of Merleau-Ponty's first major work, *The Structure of Behavior*, to reveal Merleau-Ponty's innovative and well-balanced alternative to traditional empiricism and rationalism. Merleau-Ponty's method, as it is revealed here, will be of interest to philosophers, psychologists, and social scientists concerned with freeing themselves from the limitations imposed by traditional methodologies.
