This set provides a snapshot of the current state of popular American literature including various types and genres. The volume presents alphabetically arranged entries on more than 70 diverse literary categories such as cyberpunk, fantasy, literature, flash fiction, GLBTQ literature, graphic novels, manga, and anime and zines. Each entry is written by an expert contributor and provides a definition of the genre, an overview of its history, a look at trends and themes, a discussion of how the literary form engages contemporary issues, a review of the genre's reception, a discussion of authors and works, and suggestions for further reading. Modernism & Australia Ann Stephen, Andrew McNamara, Philip Goad, 2006. This first anthology of modernist art, design, and architecture in Australia reveals the raw nerves that modernism exposed and highlights the role of migrants, expatriates, travel, and mass reproduction in the reception of modernism in Australia. In more than two hundred documents, talks, letters, fiery debates, public manifestoes, and private diaries, the main players of the time, 1917-67, convey in their own words the tensions, aspirations, and paradoxes behind the reception of modernism. Each document is put in context and accompanied by expert commentaries from the editors. The collection overturns many key assumptions about Australian culture, revealing not a time lag in reception but an up-to-date engagement with the latest overseas trends and developments. It shows a surprising acceptance of modernism in the commercial realms: design, fashion, interior decoration, yet chronicles the dogged institutional resistance that greeted modernism, particularly in the fine arts.

Science Fiction Studies, 2000 *If*, 1969 **Reassessing Dubbing** Irene Ranzato, Serenella Zanotti, 2019-08-06. Despite a long tradition of scholarship and the vast amount of dubbed audiovisual products available on the global market, dubbing is still relatively underrepresented in audiovisual research. The aim of this volume is to give dubbing research its due by showing that far from being a doomed or somewhat declining form of AVT, it is being exploited globally in the most diverse and fruitful ways. The contributions to this collection take up the diverse strands that make up the field to offer a multi-faceted assessment of dubbing on the move, embracing its important historical past as well as present and future developments, thus proving that dubbing has really come a long way and has not been less ready than other AVT modes to respond to the mood of the times. The volume will be of interest for scholars and students of translation studies, audiovisual translation, linguistics, film, television, and game studies.
